Abstract

Policies taken by the government to prevent the spread of Covid-19 which is easily contagious have an impact on family income. This research is to determine the strategies undertaken by women in fulfilling their family meet during the Covid-19 pandemic in Andaman Village, Anjir Muara Pasar District, Barito Kuala Regency, South Kalimantan Province. The research method used in this study is a quantitative research method. There were 40 respondents with the sampling using quota sampling method. The data was collected by using a questionnaire which was arranged based on observations before the research was undertaken then the results were analyzed descriptively. The results showed that there were three strategies undertaken by respondents to fulfill their family ends meet during a pandemic, namely related to work, savings, and borrowing money. Related to work, there were three types of activities, namely 5 percent getting a main job, 45 percent getting a side job, and 32.5 percent adding more working hours. Meanwhile 100 percent of respondents started to make savings and 5 percent of respondents borrowed money.

Abstrak

Kebijakan-kebijakan yang diambil pemerintah untuk mencegah perluasan Covid-19 yang mudah menular berdampak pada pendapatan keluarga. Penelitian ini dimaksudkan untuk mengetahui strategi yang dilakukan wanita dalam mencukupi kebutuhan hidup saat terjadi pandemi Covid-19 di Desa Andaman, Kecamatan Anjir Muara Pasar, Kabupaten Barito Kuala, Provinsi Kalimantan Selatan. Metode penelitian yang digunakan dalam penelitian ini adalah metode penelitian kuantitatif. Pengambilan sampel menggunakan metode sampling kuota dengan 40 responden. Pengumpulan data dilakukan kemudian hasilnya dianalisis secara deskriptif. Hasil penelitian menunjukkan adanya tiga strategi yang dilakukan responden untuk mencukupi kebutuhan hidup di saat pandemi, yaitu yang terkait pekerjaan, penghematan, dan meminjam uang. Terkait pekerjaan dibagi dalam tiga jenis kegiatan, yaitu 5 persen mendapatkan pekerjaan utama, 45 persen mendapatkan pekerjaan sampingan, dan 32,5 persen menambah jam bekerja. Lainnya adalah 100 persen responden melakukan penghematan, sedangkan 5 persen responden meminjam uang.
