

ABSTRACT

The purpose of this community service activity is so that teachers can improve professionalism through Training on the Development of Learning Devices Based on Wetland Contextual Approaches. The study was carried out on June 5-6 2021 and was carried out online, considering the increasing number of Covid-19 sufferers who continue to climb, and some participants and teams have not received the covid vaccine. The number of participants who attended was 17 people. Service activities went well. this was marked by the active question and answer by the participants, the constant number of participants from the beginning to the end of the event and the enthusiasm of the participants in trying to develop learning tools based on contextual wetlands.

Keywords: *Contextual Approach, Wetlands*

ABSTRAK

Tujuan kegiatan pengabdian pada masyarakat ini adalah agar guru dapat meningkatkan profesionalisme melalui Pelatihan Pengembangan Perangkat Pembelajaran Berbasis Pendekatan Kontekstual Lahan Basah. Penelitian telah dilakukan pada 5-6 Juni 2021 dan dilaksanakan secara daring, mengingat peningkatan jumlah Penderita covid 19 yang terus menanjak, dan sebagian peserta maupun tim belum mendapatkan vaksin covid. Jumlah peserta yang hadir yaitu 17 orang. Kegiatan pengabdian berjalan dengan baik. hal ini ditandai dengan aktifnya tanya jawab oleh peserta, jumlah peserta yang etap dari awal hingga akhir acara serta antusiasnya peserta dalam mencoba mengembangkan perangkat pembelajaran berbasis kontekstual lahan basah.

Kata Kunci : Pendekatan Kontekstual, Lahan Basah
