If it is not possible for you to submit your revision in a reasonable amount of time, we may have to consider your paper as a new submission.

Once again, thank you for submitting your manuscript to this journal and I look forward to receiving your revision.

Truly yours,

Editorial Office of **International Journal of Engineering**

Reviewers Recommendation:

Reviewer 1:

Reviewer Comment For Author:

The manuscript " Combustion Behavior of fuel Briquettes Made from Ulin Wood and Gelam Wood Residues " describes that The effect of compaction pressure (10, 12, and 15 MPa), and briquette formulation were investigated. The IW and GW were blended in the mixing ratios of 100:0, 70:30, 50:50, 30:70, and 0:100, respectively. The size of the particle was fixed of 50 μm . IW and GW were carbonized under fixed temperature (500oC), and time (120 min). However, the manuscript needs minor revision before it can be accepted for publication in International Journal of Engineering.

1- Persian abstract should be added by the authors.

2- The introduction of manuscript must be improved by authors.

3- Some more original references should be added in the introduction section.

4- The comparison data of this work to another work in the new section in this manuscript is useful to indicate the efficiency of this work.

5- What is the novelty in this manuscript?

6- The conclusion must be improved. Conclusion must be rewritten.
