EDITORIAL CORRECTIONS:

- Please ensure copies of all figures/tables/supplementary material are provided with the revised manuscript, even if these are not altered during the revisions so we can ensure we have the most up to date file for each.
- Author Contribution: The current author contribution statement does not address all five Authorship Criteria (https://www.dovepress.com/author_guidelines.php?content_id=3521). The problem can be resolved by instead using the following sentence (if it is accurate): "All authors made a significant contribution to the work reported, whether that is in the conception, study design, execution, acquisition of data, analysis and interpretation, or in all these areas; took part in drafting, revising or critically reviewing the article; gave final approval of the version to be published; have agreed on the journal to which the article has been submitted; and agree to be accountable for all aspects of the work." Alternatively, this section can be removed. Please amend your manuscript file accordingly.
- Author Affiliations: Please ensure affiliations are presented as: department, institution, city, state, country
- Figures and Tables: Please remove the tables from among the main text. The figure legends should be presented at the end of the reference list, and tables should either be supplied in a separate MS Word or MS Excel file or included following the reference list at the end of the manuscript file. Please ensure you supply all figures and tables in the correct

format/location when resubmitting.

Figures 7-11: It is Dovepress house style not to have references in the figure legends. Please made appropriate amendments.

When submitting your revised manuscript, please also provide a separate response letter addressed to the Editor. Please address every comment made by the Reviewers and Editor, and all the requested Editorial and Ethical corrections in both the manuscript and response letter. This will ensure your revised manuscript proceeds through our system without delays. Any comments or corrections not addressed or responded to will result in your submission being placed on hold while we await the corrections to be made.

Kind Regards,

Lavina Thadani

VIDEO ABSTRACT

We would also like to invite you to submit a short video abstract, which will be published with your paper. This is an initiative that encourages videos to be presented by the author(s).
