Foetal weight prediction models at a given gestational age in the absence of ultrasound facilities: application in Indonesia

Dewi Anggraini, M.App.Sci; Mali Abdollahian, Dr; Kaye Marion, M.Admin

BMC Pregnancy and Childbirth

Dear Ms Anggraini,

Your manuscript "Foetal weight prediction models at a given gestational age in the absence of ultrasound facilities: application in Indonesia" (PRCH-D-17-00439R1) has been assessed by our reviewers. Based on these reports, and my own assessment as Editor, I am pleased to inform you that it is potentially acceptable for publication in BMC Pregnancy and Childbirth, once you have carried out the essential revisions requested below:

1. In the Ethical Approval and Consent to Participate section, please clarify whether permission or consent was obtained from the midwives that had collected data for the study. If consent was obtained from the midwives please specify why this was necessary. Please also clarify why permission was not specifically obtained from the primary health care center.

Please also note that If consent was not required from the patients, we request that you include a statement on whether the need for consent was waived by an IRB or if national guidelines have established that studies such as this doesn't require consent.

2. Please note that the legend for figure 3 should be included in the figure file. However, the captions and figure titles for each figure should be included in a section titled "Figure legends" in the main manuscript after the references.

3. Please provide a section "Additional Files" after References where you list the following information about each of your supplementary files:

- File name (e.g. Additional File 1)
- Title of data
- Brief description of the data

Please ensure that all additional files are explicitly referred to in the main text. Any items which do not meet these requirements may be deleted by our production department.

*** Please also upload each of these supplemental tables and figures as separate additional files.

4. Please ensure that when you upload your revised submission that it is in the final form for publication. Please remove any tracked changes, colored text, or highlighting and include only a single clean copy of the manuscript. Should you wish to respond to these revision requests, please include the information in the designated input box only.

Please also take a moment to check our website at <https://prch.editorialmanager.com/> for any additional comments that were saved as attachments. Please note that as BMC Pregnancy and Childbirth has a policy of open peer review, you will be able to see the names of the reviewers.

Once you have made the necessary corrections, please submit a revised manuscript online at:

<https://prch.editorialmanager.com/>

If you have forgotten your password, please use the 'Send Login Details' link on the login page at <https://prch.editorialmanager.com/>. For security reasons, your password will be reset.

We request that a point-by-point response letter accompanies your revised manuscript. This letter must provide a detailed response to each reviewer/editorial point raised, describing what amendments have been made to the manuscript text and where these can be found (e.g. Methods section, line 12, page 5). If you disagree with any comments raised, please provide a detailed rebuttal to help explain and justify your decision.

Please also ensure that your revised manuscript conforms to the journal style, which can be found at the Submission Guidelines on the journal homepage.

A decision will be made once we have received your revised manuscript, which we expect by 26 Sep 2018.

Please note that you will not be able to add, remove, or change the order of authors once the editor has accepted your manuscript for publication. Any proposed changes to the authorship must be requested during peer-review, and adhere to our criteria for authorship as outlined in BioMed Central's policies. To request a change in authorship, please download the 'Request for change in authorship form' which can be found here - <http://www.biomedcentral.com/about/editorialpolicies#authorship>. Please note that incomplete forms will be rejected. Your request will be taken into consideration by the editor, and you will be advised whether any changes will be permitted. Please be aware that we may investigate, or ask your institute to investigate, any unauthorized attempts to change authorship or discrepancies in authorship between the submitted and revised versions of your manuscript.

We look forward to receiving your revised manuscript and please do not hesitate to contact us if you have any questions.

Best wishes,

Janelle Coore
BMC Pregnancy and Childbirth
<https://bmcpregnancychildbirth.biomedcentral.com/>

BMC Pregnancy and Childbirth operates a policy of open peer review, which means that you will be able to see the names of the reviewers who provided the reports via the online peer review system. We encourage you to also view the reports there, via the action links on the left-hand side of the page, to see the names of the reviewers.

If improvements to the English language within your manuscript have been requested, you should have your manuscript reviewed by someone who is fluent in English. If you would like professional help in revising this manuscript, you can use any reputable English language editing service. We can recommend our affiliates Nature Research Editing Service (http://bit.ly/NRES_BS) and American Journal Experts (http://bit.ly/AJE_BS) for help with English usage. Please note that use of an editing service is neither a requirement nor a guarantee of publication. Free assistance is available from our English language tutorial (<https://www.springer.com/gb/authors-editors/authorandreviewertutorials/writinginenglish>) and our Writing resources (<http://www.biomedcentral.com/getpublished/writing-resources>). These cover common mistakes that occur when writing in English.

Editorial Policies

Please read the following information and revise your manuscript as necessary. If your manuscript does not adhere to our editorial requirements, this may cause a delay while this is addressed. Failure to adhere to our

policies may result in rejection of your manuscript.

In accordance with BioMed Central editorial policies and formatting guidelines, all manuscript submissions to BMC Pregnancy and Childbirth must contain a Declarations section which includes the mandatory sub-sections listed below. Please refer to the journal's Submission Guidelines web page for information regarding the criteria for each sub-section (<https://bmcpregnancychildbirth.biomedcentral.com/>).

Where a mandatory Declarations section is not relevant to your study design or article type, please write "Not applicable" in these sections.

For the 'Availability of data and materials' section, please provide information about where the data supporting your findings can be found. We encourage authors to deposit their datasets in publicly available repositories (where available and appropriate), or to be presented within the manuscript and/or additional supporting files. Please note that identifying/confidential patient data should not be shared. Authors who do not wish to share their data must confirm this under this sub-heading and also provide their reasons. For further guidance on how to format this section, please refer to BioMed Central's editorial policies page (see links below).

Declarations

- Ethics approval and consent to participate
- Consent to publish
- Availability of data and materials
- Competing interests
- Funding
- Authors' Contributions
- Acknowledgements

Further information about our editorial policies can be found at the following links:

Ethical approval and consent:

<http://www.biomedcentral.com/about/editorialpolicies#Ethics>

Availability of data and materials section:

<http://www.biomedcentral.com/submissions/editorial-policies#availability+of+data+and+materials>

Recipients of this email are registered users for this journal. In line with data privacy directives, we will remove your personal information from the journal's database upon your request. Where the journal's database is shared with companion journals, this will be all-inclusive. Database sharing is indicated at the journal's homepage. At removal, your personal identifiers are hashed and your account is deactivated. We will be unable to reinstate your account history. The history of past manuscript progress is retained as a scholarly record, and may only be retrieved post-archiving, for official investigation, in line with COPE practices. Once your account is removed, you are no longer known to the journal. As such, it will be possible for journal Editors to re-register you anew, if your contact details and expertise are found in the public record. You will always be notified of a (re)registration, prior to invitation to participate. If you prefer that the journal persistently recalls your wish to not be contacted for invitations to participate, please indicate this. This may be accommodated as a service provision, but necessitates that we maintain a record of your registration details and preference for no-contact. Publication office:

PublicationOfficeSPI@springernature.com

In compliance with data protection regulations, please contact the publication office if you would like to have your personal information removed from the database.

BMC Pregnancy and Childbirth

Dear Ms Anggraini,

Thank you for your revisions. Before we can proceed, please clarify whether permission was obtained from the selected health center to access de-identified data. Please also include the full name of the health center. Please also clarify whether the midwives had provided the data and if this was approved by the ethics committees.

Please also take a moment to check our website at <https://prch.editorialmanager.com/> for any additional comments that were saved as attachments. Please note that as BMC Pregnancy and Childbirth has a policy of open peer review, you will be able to see the names of the reviewers.

Once you have made the necessary corrections, please submit a revised manuscript online at:

<https://prch.editorialmanager.com/>

If you have forgotten your password, please use the 'Send Login Details' link on the login page at <https://prch.editorialmanager.com/>. For security reasons, your password will be reset.

We request that a point-by-point response letter accompanies your revised manuscript. This letter must provide a detailed response to each reviewer/editorial point raised, describing what amendments have been made to the manuscript text and where these can be found (e.g. Methods section, line 12, page 5). If you disagree with any comments raised, please provide a detailed rebuttal to help explain and justify your decision.

Please also ensure that your revised manuscript conforms to the journal style, which can be found at the Submission Guidelines on the journal homepage.

A decision will be made once we have received your revised manuscript, which we expect by 28 Sep 2018.

Please note that you will not be able to add, remove, or change the order of authors once the editor has accepted your manuscript for publication. Any proposed changes to the authorship must be requested during peer-review, and adhere to our criteria for authorship as outlined in BioMed Central's policies. To request a change in authorship, please download the 'Request for change in authorship form' which can be found here - <http://www.biomedcentral.com/about/editorialpolicies#authorship>. Dear Ms Anggraini,

I am pleased to inform you that your manuscript "Foetal weight prediction models at a given gestational age in the absence of ultrasound facilities: application in Indonesia" (PRCH-D-17-00439R3) has been accepted for publication in BMC Pregnancy and Childbirth.

If any final comments have been submitted from our reviewers or editors, these can be found at the foot of this email for your consideration.

Before publication, our production team will also check the format of your manuscript to ensure that it conforms to the standards of the journal. They will be in touch shortly to request any necessary changes, or to confirm that none are needed.

Please do not hesitate to contact us if you have any questions regarding your manuscript and I hope that you will consider BMC Pregnancy and Childbirth again in the future.

If you wish to co-submit a data note to be published in BMC Research Notes (<https://bmccresnotes.biomedcentral.com/about/introducing-data-notes>) you can do so by visiting our submission portal <http://www.editorialmanager.com/resn/>. Data notes support open data (<https://www.springernature.com/gp/open-research/open-data>) and help authors to comply with funder policies on data sharing. Please note that this additional service is entirely optional.

Best wishes,

Tillie Cryer, on behalf of Janelle Coore
