Dear author

Your paper has been subjected to a review process by our reviewers who are experts in the related fields. Based on the reviewers' recommendations, you have to revise your paper according to IOP: Earth and Environmental Science format. Please revise and submit your revised paper through <http://epaper.uasc.ugm.ac.id> by the latest on October 2, 2019.

Thank you very much for submitting your article to the ISTAP 2019. I look forward to receiving the revised version of your manuscript. For more information please contact us at [email:istap@ugm.ac.id](mailto:istap@ugm.ac.id).

Hi Pak Ika,

It seems there is no additional comment from the reviewers except the format. Can I leave them to you to finish, and resubmit by 2 October? Attached are the latest versions. Please note that I have changed the order of the authorship to reflect the contribution of each co-author.

@Bu Eni, do you agree with these changes?

Regards,

Christie

I will try to do it, Christie. Because I have to manage many things this week, I wish I can finish it on 2 October.

Regards

Dear Bu Eni,

As the first author did the farming system paper, could you please change the format according to the template sent before by 2 Oct. Thanks.

Regards,  
Christie

Tue, Oct 1, 2019 at 9:40 AM

Dear Christie,  
Please find the revised version of paper in IOP format.

This morning we will have fieldwork in Pulau sari. For your information, the demo-site in Pulau Sari has been started, so many things have to do such as preparing feed concentrate, collecting and treating crop by-products, cattle recording and observations (body weight, BCS etc) as well as also trainings for the collaborated farmer.

As you know, it is only a demo site in one site, we have 3 sites and there are also other activities out of demo site. So we are very busy now.

Christie, I just one you to understand why we are so busy and sometimes seemed not to pay attention to your inquiries. Our situation is different from yours. This indobeef project is only one of our task, and we don't get monthly salary from this activity, except per diem when there is fieldwork related to additional objectives such as from socio economic like you do.

So that is why sometimes bu eni try to combine indobeef activity with another project in BPTP, so she can pay per diem of the team member from other BPTP projects.

I wish you know understand why bu eni was doing that.

And, I don't know if you have heard that bu eni will move officially in November to Bogor, so she will be in the central office in Bogor and can not be a coordinator for Indobeef project in Kassel. Honestly, I am quite sad about this situation.

Kind regards

Dear Pak Ika,

Thx a lot for helping me understand the situation on the ground.
