Dr. Ahmad Humayan Kabir

Editor-in-Chief of *International Journal of Biosciences (IJB)*

Dear Editor:

Please find enclosed our manuscript entitled "**Investigations of Key Factors Affecting Market Channel Choice Decision by Saba Banana Farmers Using A Multinomial Logistic Model**" which we request you to consider for publication as an *Original Article* in the *International Journal of Biosciences (IJB)*

The primary focus of agricultural development is to push for efficient marketing of agricultural goods. Small-scale farmers, in particular, often face several barriers that limit them from maximizing market opportunities. Marketing channels are one of the most critical choices a farmer must make since it significantly impacts agricultural income. Many academic studies have assessed the determinants in choosing marketing channels by farmers. However, a dearth of information is related explicitly to the saba banana commodity. On the other hand, the saba banana is one of several banana cultivars that are very important, especially in commercial production and trade. Therefore, Our article will contribute to empirical work by exploring factors influencing banana saba farmers to choose the best marketing channel.

This manuscript has not been published elsewhere and is not under consideration by another journal. We have approved the manuscript and agree with submission to the *International Journal of Biosciences (IJB)*. There are no conflicts of interest to declare.

I beg and sincerely hope that this article will be received as soon as possible, because I use this article as one of the requirements for graduation from the Doctoral Program. Thank you for accepting our manuscript and considering it for review. We value your time and look forward to hearing from you at your earliest convenience.

Sincerely,

Rokhman Permadi
