Dear Editor of International Review of civil engineering (IRECE),

May I inform you that I already sent our article last month, but until now I don't accept the announcement or review about our article from editor.

From your information that the average time between submission and final decision is 39 days and the average time between acceptance and publication is 21 days. How about our article sir? Maybe you can give us more information about it.

Hereby we also attach our article files

Thank you for your attention

Your sincerely,

Editorial Staff <editorialstaff@praiseworthyprize.org>
 To: nursiah.chairunnisa@ulm.ac.id

Wed, Apr 24, 2019 at 4:29 PM

Dear Prof. nursiah chairunnisa,

First of all, we apologize for the lengthy review period.

Manuscript ID 16813 entitled "Parametrical Study in Non-Linear Numerical Analysis of A Coupling Beam With Steel Truss Configuration in Shear Wall System" which you submitted to our Journal "International Review of Civil Engineering (IRECE)" has been reviewed. The comments of the reviewer(s) are included at the bottom of this email.

The reviewer(s) have recommended a MAJOR REVISION.

This is an opportunity for you to respond to their major concerns and to incorporate improvements in the paper according to their suggestions. It is also an opportunity for you to add new results.

We normally only permit one major revision before an accept or reject decision is made. So please take the concerns of the reviewers seriously.

Therefore, I invite you to respond to the reviewer(s)' comments and revise your manuscript within four weeks from the date of this email.

You should revise your manuscript using a word processing program and save it on your computer. Please also highlight the changes to your manuscript within the document by using the colored text in red.

Once the revised manuscript is prepared, you can upload it and submit it through your on-line submission system.

In order to expedite the processing of the revised manuscript, please be as specific as possible in your response to the reviewer(s).

If it is not possible for you to submit your revision in a reasonable amount of time, we may have to consider your paper as a new submission.

Once again, thank you for submitting your manuscript to our Journal and I look forward to receiving your revision.

Sincerely,

Dr. K. M. Liew, Editor-in-Chief of International Review of Civil Engineering (IRECE)

kmliew@cityu.edu.hk

Reviewer Responses:

After a complete review of the article, we strongly suggest the editor and author to undergo a major revision. A revised version after evaluation can be considered for publication.

Below the summary of the main remarks:

- English is understandable but needs correction of grammatical errors and style. We suggest to use our service "English Language Editing". More information can be found to

http://www.praiseworthyprize.com/english_service.htm

- All the references should be in English Language; please, translate Refs. [1] and [18]

- The literature review needs to be expanded to the threshold of two journal pages based on 2016-2018 references.

- More references should support the analysis of the state of the art in the Review section: we strictly encourage the authors to visit our wide database of titles where they could search for references, at the page

<http://www.praiseworthyprize.org/jsm/index.php?journal=index&page=search>

- At the end of the Introduction add a paragraph on how the rest of the paper is organized and developed, typically a summary on the rest.

- At the beginning of the paper, before the Introduction section, a Nomenclature section, not numbered, should be added with a list, in alphabetic order, of all the used symbols and their meaning.

- Please note that color graphs could lost information in the paper printed in grey-scale, so the authors should use different markers for curves or different background in order to preserve the significance of that colors.

For any questions don't hesitate to contact us.

Best regards,
Editorial Staff

Dear Editorial Staff of Praise Worthy Prize,

Thank your the oppurtunity for me to revise of my manuscript.
Actually, I have completed the revision of my article regarding the main remarks from reviewer.
And now, I'm a little bit confused how to upload my revision paper through my on-line submission system.
Should I submit my revision paper through the online submission similar to a new paper and I have to upload through
five step such as start, upload submission, enter meta data, upload supplementary file and finish ?
And I want to use "English Language Editing" from Praise Worthy Prize for my article to correct the grammatical errors
of the paper. So, I need an information about the procedure for using it?

Thank you for your attention and information

Your sincerely,
Nursiah Chairunnisa

Tue, May 7, 2019 at 4:51 PM

Dear Dr. Chairunnisa
thank you for your email.
In order to upload the revised version of your paper you do not have to submit it as a new article but you should enter in the profile
of your paper Id 16813 and below the section Editor Decision (in review Layout) you should click on upload author version.
As for the english editing service, you can decide to purchase the english editing service at the cost of 60 euros.
In such case you should revise the paper according to all other requests except for the english and upload it entering in your profile
paper web page as for the above instructions.
After received the revised version that reflects all the changes requested, the paper will be accepted and you will receive all the
instructions for proceeding to the publication steps.

In the order form you should select the english editing service together with the print or electronic journal of paper. After received your payment and related documents, the final version of paper will be forwarded to our staff for english editing and who will correct and check eventual problems in the english. Then you will receive a final draft (not formatted in the final version of the Journal.- it will be done in a second time) for a double check and clarifications if needed

Reviewer Responses:

The following remarks should be still satisfied:

1- At the end of the Introduction add a paragraph on how the rest of the paper is organized and developed, typically a summary on the rest.

Moreover after all the above comments will be considered satisfied, in the acceptance e-mail it will be required to purchase the english editing service as for your request.

For any questions don't hesitate to contact us.

Mon, May 13, 2019 at 6:13 PM

nursiah chairunnisa:

It is my great pleasure to inform you that your paper ID 16813 "Parametrical Study in Non-Linear Numerical Analysis of A Coupling Beam With Steel Truss Configuration in Shear Wall System" has been accepted and will be published on the International Review of Civil Engineering (IRECE) after the english revision by PWP staff.

If you want to publish the paper on the current issue of the Journal, please, accomplish the following requirements as soon as possible:

1. You should order and pay for the Article Publication Fee (you should buy the e-journal or the hard copy containing your paper) by entering into your restricted area with your username and password at:
<http://www.praiseworthyprize.org/jsm/index.php?journal=irece&page=login>, going to the Summary section of your accepted paper and clicking on the "PAY NOW" link.

(Please select the english editing service in the order form).

2. You should download, fill in, sign and return, by e-mail to info@praiseworthyprize.it the following documents:

2.1 COPYRIGHT FORM at:
<http://www.praiseworthyprize.org/public/documents/copyright%20Praise%20new.pdf>

2.2 TREATMENT OF PERSONAL DATA at:
http://www.praiseworthyprize.org/public/documents/Treatment%20of%20Personal%20data%20_2_.pdf

2.3 the PERMISSION REQUEST FORM at:
<http://www.praiseworthyprize.org/public/documents/COPYRIGHT%20PERMISSION%20PRAISE.pdf>

for the reproduction of any figure, table or extensive (more than fifty words) extract from the text of a source that is copyrighted or owned by a party other than Praise Worthy Prize or of the Author.
In particular, the copyright permission document should be filled by you and sent to the owner of Copyright of the papers (generally the Publishing House that edited the article or the book) you cited in figures 7 and 10 to ask their permission to reuse the cited figured in your paper. They should send back the permission with the signature and then you should forward the documents to me.

Sincerely,
Dr. K. M. Liew, Editor-in-Chief of International Review of Civil Engineering (IRECE)
kmliew@cityu.edu.hk

Warning for print deliveries:

In case you decide to order the print copy of the journal, we point out that the shipping will be made with the "regular mail" service, without the possibility to monitor the delivery. In this case the delivery time will take around two months. Otherwise, you can decide to receive it with a "registered mail" service, that will have a cost around 35.00 euros (for one print copy) instead of about 25.00 euros requested for the regular mail. In case of "registered mail" service, the delivery can be monitored and the time delivery is within 30 working days.

Summary for one print copy:

Shipping mode	Cost	Delivery time	Delivery monitoring
Regular mail	25.00 euros	30 working days	No
Registered mail	35.00 euros	30 working days	Yes

Please note that if you will not receive the copy, it will not be possible to send it to you again for free. Anyway, in the case of lost delivery, we will send you the proof of the shipping and the password to download the electronic version of the issue where your paper has been published.

N.B. Please verify that all the metadata indicated in the webpage of your submission (in the Summary section) are updated respect to the final version of the paper you've uploaded.

Dear Editorial Staf of Praiseworthyprize

I would like to inform you I already fulfilled the payment for the Article Publication Fee and English Editing Fee.

Here, I attach several documents from my article with ID 16813 "Parametrical Study in Non-Linear Numerical Analysis of A Coupling Beam With Steel Truss Configuration in Shear Wall System" that include :

- a. copyright form from all authors**
- b. treatment of personal data**

For the copyright permission document for figures 7 and 10 that I cited in this paper actually i cited them from software SAP 2000, I Aready ask to publishing house through the email and I still waiting for the response.

I think it is need a more time to get the permission with the signature.

And how about if I change those figures or cancel it from the content of paper so I do not need to fulfill the document of the copyright permission I . Is it possible for me ?

Thank you for your information

Dear D. Chairunnisa

thank you for your e-mail.

First of all please note that the copyright form you've sent me is not complete: infact the first page with author list, title of the paper and of the Journal (in your case IRECE) is missing. Please be so kind to send me this missing page.

Concerning the copyright permission, you can avoid to wait the response of the Publishing House, by changing both figures.

Please send me the new revised version with the two changed figures so to replace this version to the previous one.

I'm looking forward to hearing from you.

Dear Editorial Staff of Praise Worthy Prize,

I'm so sorry about the missing sheet from Copyright File. Here I re-attach both of the files.

And regarding copyright permission for figure 7 until Figure 10 in my article, I already get an information associated with the permission from publishing house of CSI Software. Also I attach the email response from them.

Overall, Their answer is that CSI has no objection to use figures for education and research purposes.

Hopefully, this file can be used as copyright permission that required by International Review of Civil Engineering (IRECE) Journal and it means that I don't need to change the image in the article.

Thank you for your kind

Dear Dr. Chairunnisa,

thank you for your e-mail.

I confirm you that I received all the needed and your paper has been included in the current issue of IRECE (July 2019).

As soon as the issue will be ready you will receive the product you purchased.

Furthermore, we wish to inform you that we have recently activated the English Editing Service for articles that are not going to be published on our Journals: if you (or one of your colleagues) have one or more scientific articles that you wish to submit to other Journals (not PWP) and you would like to submit it in a proper English, you can ask to use the same service that you have just received, for a different price. For more information, you can ask us by email.

Dear Editorial Staff of Praise Worthy Prize

Thank you for IRECE for publishing of my paper with entitled "Parametrical Study in Non-Linear Numerical Analysis of A Coupling Beam With Steel Truss Configuration in Shear Wall System" that has been included in the issue of IRECE (Juli 2019 edition).

I want to ask something related the author name in my article. Actually my paper consist of three author i.e Nursiah chairunnisa as first author, iman satyarno, muslikh and akhmad aminullah as second, third and fourth authors respectively, but in the IRECE Journal for Juli 2019 Edition only my name nursiah chairunnisa is listed.
 is it possible to include the name of other author in my paper and published it in web IRECE for July 2019 edition. So other authors can see by themselves about our article in this web

Thank you for your kind,
 with best regards,
 Nursiah chairunnisa

Dear Dr. Chairunnisa
 thank you for your e-mail.
 Please note that the latest issue of IRECE available now on the website is not updated yet.
 At the moment it reports the information you registered at the moment of submission.
 It will be updated with all the list of authors as indicated in the final version of the paper once the final version of the issue is completed (within the next weeks).
 In any case I confirm you that the latest version you sent us is the one that will be published.
 Best Regards

Angela Tafuro

Dear Editorial Staff of Praise Worthy Prize

Thank you for IRECE for publishing of my paper with entitled "Parametrical Study in Non-Linear Numerical Analysis of A Coupling Beam With Steel Truss Configuration in Shear Wall System" that has been published in the issue of IRECE (Juli 2019 edition).

I already can access the abstract in web of www.praiseworthyprize.org.

I want to ask something related the full paper of my article which has been published. Will I obtain my final paper that published in IRECE Journal through my e-mail or I have to pay for it ?

Thank your for your attention.

Dear dr. Chairunnisa

thank you for your e-mail.

Since you've purchased the electronic full version of the IRECE, you will receive the password to access the July issue of IRECE within two weeks.

Then if you wish you can ask also for the single pdf version (it's a free service for authors).
