Nursiah Chairunnisa:

Thank you for submitting the manuscript, "The THE EFFECT OF NATURAL FIBER (BANANA FIBER) ON THE MECHANICAL PROPERTIES OF SELF-COMPACTING CONCRETE" to Journal of Applied Engineering Science. With the online journal management system that we are using, you will be able to track its progress through the editorial process by logging in to the journal web site:

Manuscript URL: <https://aseestant.ceon.rs/index.php/jaes/authorDashboard/submission/32879>
Username: nursiah_chairunnisa1979

If you have any questions, please contact me. Thank you for considering this journal as a venue for your work.

Nada Stanojevic

Ovaj mejl je poslat sa sistemskog naloga. Ako želite da odgovorite na njega, molimo Vas da koristite sledeću adresu e-pošte:

Dear Nada Stanojevic
Journal of Applied Engineering Science

I Already fulfill the affiliation and contact data of all corresponding authors in within Metadata section of JAES portal.

I just realized that the submission text file is in Microsoft Word format in English language . In this email, I attached two files for replacing the older files that consists of :

1. manuscript text file in Microsoft word
2. Submission checklist manuscript

Perhaps, the manuscript article can continue for double-blind review . Thank you

Best Regards

Nursiah Chairunnisa
Civil engineering Program, Engineering Faculty

Dear Corresponding Author,

Formal check of the received documents indicated need for following improvements:

- affiliation and contact data of all corresponding authors did not filled in within Metadata section of JAES portal. This activity is obligatory for entering the review process. **Please fill in the Metadata form for all corresponding Authors.** Only authors registered at the beginning of the process will be accepted as co-authors on the submitted paper. Institutional email addresses are desirable.
- paper is not prepared for double blind review. **Please follow the instruction for double-blind review** <http://www.engineeringscience.rs/submit-an-article>

In order to continue further processing of the manuscript, it is necessary to upload the missing data/documents via the JAES portal no later than 3.7.2021.

To: NURSI AH CHAIRUNNISA <nursiah.chairunnisa@ulm.ac.id>, RATNI NURWIDAYATI <ratninurwidayat@ulm.ac.id>, GUSTI MADANI <madanisyah21@gmail.com>

Dear NURSI AH CHAIRUNNISA, RATNI NURWIDAYATI, GUSTI MADANI,

We have reached a decision regarding your submission to Journal of Applied Engineering Science, "The THE EFFECT OF NATURAL FIBER (BANANA FIBER) ON THE MECHANICAL PROPERTIES OF SELF-COMPACTING CONCRETE".

Our decision is to: Reubmit to review

The objections are serious and you are therefore given a month to rectify them.

The deadline for sending the corrected manuscript is August 20, 2021

With kindly regards

Gradimir Danon
Editor in Chief
gdanon@iipp.rs

Journal of Applied Engineering Science - JAES www.engineeringscience.rs

Reviewer A:

The concept and the aim of this article is very intersting, to use natural fiber such as Banana fiber. In my opinun better if the author starting used natural fiber (Banana fiber) in normal trational concrete, after that you can upgrade your idea and your research to use in main applications, (Grout or SCC).

The paper presents an interesting study to evaluate the effect of natural fiber (Banana fiber) on the mechanical properties of self compacting concrete.

The study is well described in scientific terms and is supported by laboratory tests.

This paper could be made effective with minor revision.

Technical:

T1: Page 3, Where are the gradations of both coarse and fine aggregate curve. Which Specification you are used? This is very important?

T2. What about fineness modulus of sand ? did you computed?

T3. Page 4, Table 4. shows the quantity of cement is very high is 518 kg/m³. For design compressive strength of self-compacting concrete up to 38 MPa... Why you added the high range of cement? What about the cost of cement which you added?

T4. What about plastic shrinkage and drying shrinkage if the cement is very high is 518 kg/m³?

T5. Table 6... What about J ring test ? I did see in the results? This also very important test?

T7. Table 6..L box test is %??

T8. Table 8. Slump flow test only tested , where are other tested such as L box or V funnel ? I think only two tested SCCSP0.7 and SCCSP0.7_A...with the mimum range of Slump flow...but the other tested out of the range?

T9. Hardened concrete of SCC Page 7. ...The compressive strength is not satisfied, with high range of cement? Mix ID SCCSP0.7_D, the strength 47.47 MPa, Why the strength in increase only in this mix ? I did not see any explanations?

T10...conclusion and recommendations....better if you added as future research, how to application the natural fiber such as Banana fiber, for grouting or Two-stage concrete. there are alot of articles using Two-stage concrete....

Recommendation: Revisions Required

Reviewer B:

Authors tested the fresh, and hardened properties of self- compacting concretes containing different amounts of banana fibers in mixture. I regret to say that the scope and aim of this study has no novelty. All results about banana fibers are expectable and similar fresh, and mechanical tests are previously performed before and published in literature. As of this form, this paper is more look like a test report rather than a research article with novel findings. Unfortunately, I am against its publication due to the lack of originality and novelty.

Recommendation: Resubmit Elsewhere

Dear Editor and reviewers:

We greatly appreciate the through and thoughtful comments provided on our submitted article. It has taken us a rather long time to complete the final revision. We made sure that each one of the reviewer comments has been addressed carefully and the paper is revised accordingly.

Here attached the new article that already resubmitted at Journal of Applied Engineering Science for resubmitting to review as your advice before and we also attached below are detailed responses to the reviewer's comments

Best regards,

Author of the manuscript

Dear Sir,

We want to inform you that we have paid for the pay article processing cost last week for our article with entitled THE EFFECT OF NATURAL FIBER (BANANA FIBER) ON THE MECHANICAL PROPERTIES OF SELF-COMPACTING CONCRETE

here, we attached the proof of payment from national bank at Indonesia.

Looking forward to hearing from you if our payment is successfull and accepted by Journal of Applied Engineering Science.

Looking forward to your answer for the next step of publication of our article

Kind regards,
Nursiah Chairunnisa

Dear Authors,

With great pleasure we would like to inform you that your paper under the title: THE EFFECT OF NATURAL FIBER (BANANA FIBER) ON THE MECHANICAL PROPERTIES OF SELF-COMPACTING CONCRETE is accepted for publication in our Journal of Applied Engineering Science.

For paper publication you need to pay article processing cost.

Since July 1st 2018 APC of 350 Euros per article is introduced for all manuscripts accepted for publication in the JOURNAL OF APPLIED ENGINEERING SCIENCE.

We want to indicate that THE COST OF INTERNATIONAL INTERBANK TRANSACTIONS SHOULD BE PAID BY THE CLIENT.

The costs of international interbank transactions are not the costs that the Institute should pay.

Please find attached proforma invoice as well as payment instructions.

Looking forward to your answer.

Kind regards,
Editorial office

Dear Sir,

We want to inform you that we have paid for the article processing cost two week ago from Indonesia for our article with entitled THE EFFECT OF NATURAL FIBER (BANANA FIBER) ON THE MECHANICAL PROPERTIES OF SELF-COMPACTING CONCRETE (ID 32879)

According to the National Bank (BNI Bank) at Indonesia, our payment is already accepted at 28 September 2021 by Bank with account number

RS35160005080002818060,
INSTITUT ZA ISTRAŽIVANJA I PROJEKTOVANJA,
Vatroslava Lisinskog 12-a,
BEOGRAD, REPUBLIKA SRBIJA

Looking forward to your further information related with our payment of paper.
Please give us information if there are some problem with our transfer of payment.
if there is a problem, soon we try to withdraw our previous payment and re-transfer again with other National Bank in Indonesia for paying the article processing cost.
We waiting for your response

Thank you

Kind regards,
Nursiah Chairunnisa

Dear Committee,
Thank you for your information.

There are several point that have to be corrected related the manuscript:

1. There is a typo word in the " header" of manuscript: **propterties** should be **properties**
2. I want to revise the information at the end of manuscript (**Page 8**) related with the **time submission** that already was written in the manuscript: Paper submitted: **02.09.2021**. According to the web and our corresponding email, our first time submission on **28.06.2021**
3. if it's possible, please change our region from **Kalimantan Selatan** to **Banjarbaru**. So full our affiliation become:
Lambung Mangkurat University, Engineering Faculty, Civil Engineering Study Program, Banjarbaru, Indonesia

Hopefully, the list of correction can be changed by the committee of Journal of Applied Engineering Science

Kind regards,

Nursiah Chairunnisa
