Editorial Policies

Please read the following information and revise your manuscript as necessary. If your manuscript does not adhere to our editorial requirements this will cause a delay whilst the issue is addressed. Failure to adhere to our policies may result in rejection of your manuscript.

In accordance with BioMed Central editorial policies and formatting guidelines, all submissions to BMC Pediatrics must have a Declarations section which includes the mandatory sub-sections listed below. Please refer to the Journal's Submission Guidelines web page for information regarding the criteria for each sub-section (<https://bmcpediatr.biomedcentral.com/>)

Where a mandatory section is not relevant to your study design or article type, for example, if your manuscript does not contain any individual persons data, please write 'Not applicable' in these sections.

For the 'Availability of data and materials' section, please provide information about where the data supporting your findings can be found. We encourage authors to deposit their datasets in publicly available repositories (where available and appropriate), or to be presented within the manuscript and/or additional supporting files. Please note that identifying/confidential patient data should not be shared. Authors who do not wish to share their data must state that data will not be shared, and provide reasons for this in the manuscript text. For further guidance on how to format this section, please refer to BioMed Central's editorial policies page - <http://www.biomedcentral.com/submissions/editorial-policies#availability-of-data-and-materials>.

BMC Pediatrics

Dear Dr RINGORINGO,

Your manuscript 'Gastrointestinal bleeding due to idiopathic early onset of vitamin K deficiency bleeding on a girl baby 50 minutes after birth: a rare case' (BPED-D-22-00377R1) has been assessed by our reviewers. Based on these reports, and my own assessment as Editor, I am pleased to inform you that it is potentially acceptable for publication in BMC Pediatrics, once you have carried out some essential revisions suggested by our reviewers.

Their reports, together with any other comments, are below. Please also take a moment to check our website at <https://www.editorialmanager.com/bped/> for any additional comments that were saved as attachments. Once you have made the necessary corrections, please submit a revised manuscript online at: <https://www.editorialmanager.com/bped/>

If you have forgotten your password, please use the 'Send Login Details' link on the login page at <https://www.editorialmanager.com/bped/>. For security reasons, your password will be reset.

We request that a point-by-point response letter accompanies your revised manuscript. This letter must provide a detailed response to each reviewer/editorial point raised, describing what amendments have been made to the manuscript text and where these can be found (e.g. Methods section, line 12, page 5). If you disagree with any comments raised, please provide a detailed rebuttal to help explain and justify your decision.

Please also ensure that your revised manuscript conforms to the journal style, which can be found at the Submission Guidelines on the journal homepage.

A decision will be made once we have received your revised manuscript, which we expect by 13 Aug 2022.

Please note that you will not be able to add, remove, or change the order of authors once the editor has accepted your manuscript for publication. Any proposed changes to the authorship must be requested during peer-review, and adhere to our criteria for authorship as outlined in BioMed Central's policies. To request a change in authorship, please download the 'Request for change in authorship form' which can be found here - <http://www.biomedcentral.com/about/editorialpolicies#authorship>. Please note that incomplete forms will be rejected. Your request will be taken into consideration by the editor, and you will be advised whether any changes will be permitted. Please be aware that we may investigate, or ask your institute to investigate, any unauthorized attempts to change authorship or discrepancies in authorship between the submitted and revised versions of your manuscript.

Activate Windows

## DAFTAR PERTANYAAN EDITOR DAN PEER REVIEW UNTUK MEREVISI KEMBALI ARTIKEL: 31 JULI 2022

rey.roderos@springer.com

Active

14 of 28

Editor Comments:

We operate a transparent peer review process for this journal where reviewer reports are published with the article but the reviewers are not named (unless they opt in to include their name).

Reviewer reports:

Reviewer 1: It is a well designed case report.

Reviewer 2: Thanks to the editor for this opportunity to review the revised manuscript number BPED-D-22-00377R1, entitled "Gastrointestinal bleeding due to idiopathic early onset of vitamin K deficiency bleeding in a girl baby 50 minutes after birth: a rare case". It is a good manuscript about hemorrhagic disease of the newborn caused by early-onset vitamin K deficiency in a healthy neonate of a healthy, well antenatal care followed pregnant mother. There are some language, syntax errors require correction.

In the title, it is better to be "Gastrointestinal bleeding due to idiopathic early onset of vitamin K deficiency bleeding in a girl baby 50 minutes after birth: a rare case".

In Page 1, line 60: it is correct of read as follows: The patient returned home in good clinical condition.

In Page 4, line 60: Also, early-onset VKDB is associated with impaired fat and fat-soluble vitamins absorption in the mother. ....

In the 5th paragraph of Discussion and Conclusion section, the authors wrote "Vitamin K1 1-2 mg (250-300 g/kg body weight) IM or SC.....". I think it is too much dose of vitamin K as it is usually measured in milligrams or micrograms Not grams. So, I think the authors mean "Vitamin K1 1-2 mg (250-300 ug/kg body weight) IM or SC".

In Page 6, line 3, it is correct if read as follows: Early-onset VKDB, of course, can be prevented.

In Page 6, line 17, the authors wrote "plasma, newborn plasma, breast milk, and maternal-newborn PIVKA-II factor". What is the meaning of the abbreviation PIVKA-II?

In Page 6, line 24, it is correct if read as follows: In addition, pregnant women who received drugs that.....

In Page 6, line 34, it is correct if read as follows: FFP = Fresh Frozen Plasma.

If you have forgotten your password, please use the 'Send Login Details' link on the login page at <https://www.editorialmanager.com/bped/>. For security reasons, your password will be reset.

We request that a point-by-point response letter accompanies your revised manuscript. This letter must provide a detailed response to each reviewer/editorial point raised, describing what amendments have been made to the manuscript text and where these can be found (e.g. Methods section, line 12, page 5). If you disagree with any comments raised, please provide a detailed rebuttal to help explain and justify your decision.

Please also ensure that your revised manuscript conforms to the journal style, which can be found at the Submission Guidelines on the journal homepage.

A decision will be made once we have received your revised manuscript, which we expect by 24 Sep 2022.

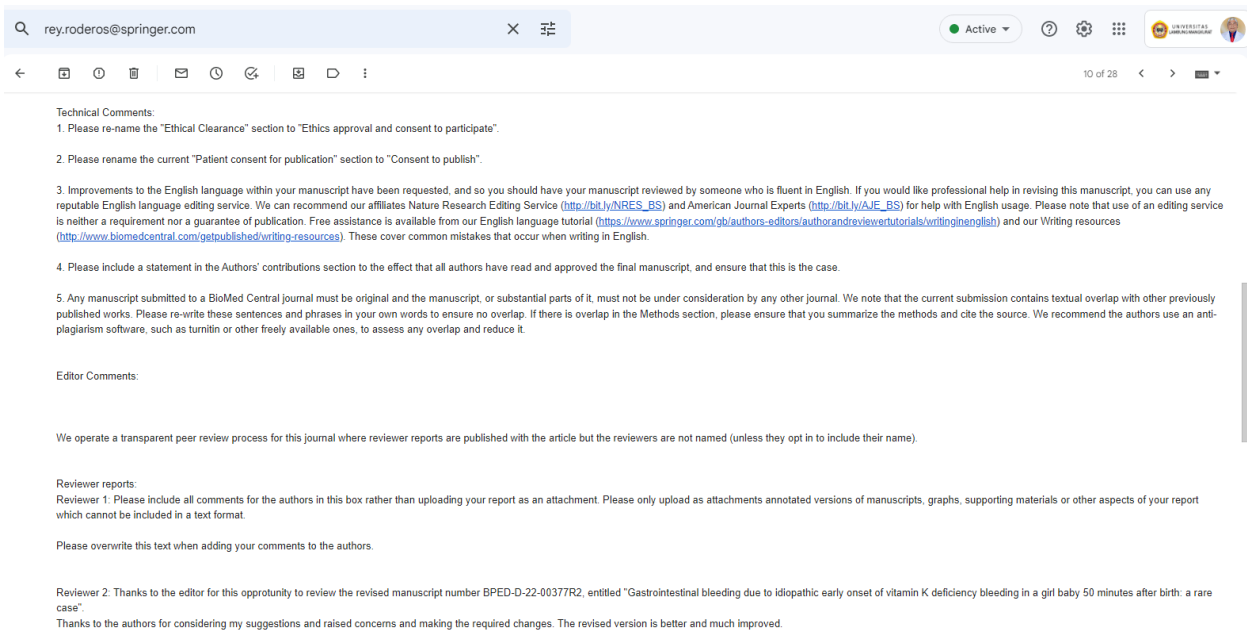

Please note that you will not be able to add, remove, or change the order of authors once the editor has accepted your manuscript for publication. Any proposed changes to the authorship must be requested during peer-review, and adhere to our criteria for authorship as outlined in BioMed Central's policies. To request a change in authorship, please download the 'Request for change in authorship form' which can be found here - <http://www.biomedcentral.com/about/editorialpolicies#authorship>. Please note that incomplete forms will be rejected.

Your request will be taken into consideration by the editor, and you will be advised whether any changes will be permitted. Please be aware that we may investigate, or ask your institute to investigate, any unauthorized attempts to change authorship or discrepancies in authorship between the submitted and revised versions of your manuscript.

We look forward to receiving your revised manuscript and please do not hesitate to contact us if you have any questions.

## DAFTAR PERMINTAAN PEER REVIEW YANG HARUS DIPERBAIKI PENULIS: 14 SEPTEMBER 2022

rey.roderos@springer.com

Technical Comments:

1. Please re-name the "Ethical Clearance" section to "Ethics approval and consent to participate".
2. Please rename the current "Patient consent for publication" section to "Consent to publish".
3. Improvements to the English language within your manuscript have been requested, and so you should have your manuscript reviewed by someone who is fluent in English. If you would like professional help in revising this manuscript, you can use any reputable English language editing service. We can recommend our affiliates Nature Research Editing Service ([https://bit.ly/NRES\\_BS](https://bit.ly/NRES_BS)) and American Journal Experts ([https://bit.ly/AJE\\_BS](https://bit.ly/AJE_BS)) for help with English usage. Please note that use of an editing service is neither a requirement nor a guarantee of publication. Free assistance is available from our English language tutorial (<https://www.springer.com/gb/authors-editors/authorandreviewertutorials/writinginenglish>) and our Writing resources (<http://www.biomedcentral.com/getpublished/writing-resources>). These cover common mistakes that occur when writing in English.
4. Please include a statement in the Authors' contributions section to the effect that all authors have read and approved the final manuscript, and ensure that this is the case.
5. Any manuscript submitted to a BioMed Central journal must be original and the manuscript, or substantial parts of it, must not be under consideration by any other journal. We note that the current submission contains textual overlap with other previously published works. Please re-write these sentences and phrases in your own words to ensure no overlap. If there is overlap in the Methods section, please ensure that you summarize the methods and cite the source. We recommend the authors use an anti-plagiarism software, such as turnitin or other freely available ones, to assess any overlap and reduce it.

Editor Comments:

We operate a transparent peer review process for this journal where reviewer reports are published with the article but the reviewers are not named (unless they opt in to include their name).

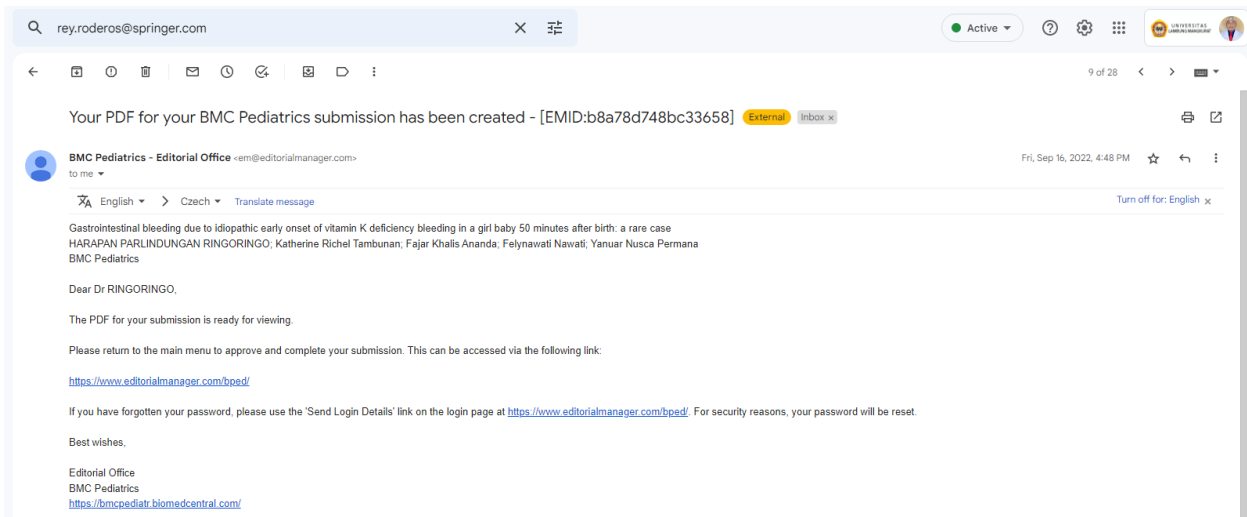

Reviewer reports:

Reviewer 1: Please include all comments for the authors in this box rather than uploading your report as an attachment. Please only upload as attachments annotated versions of manuscripts, graphs, supporting materials or other aspects of your report which cannot be included in a text format.

Please overwrite this text when adding your comments to the authors.

Reviewer 2: Thanks to the editor for this opportunity to review the revised manuscript number BPEd-D-22-00377R2, entitled "Gastrointestinal bleeding due to idiopathic early onset of vitamin K deficiency bleeding in a girl baby 50 minutes after birth: a rare case".  
Thanks to the authors for considering my suggestions and raised concerns and making the required changes. The revised version is better and much improved.

Dear Dr RINGORINGO,

Your manuscript 'Gastrointestinal bleeding due to idiopathic early onset of vitamin K deficiency bleeding in a girl baby 50 minutes after birth: a rare case' (BPED-D-22-00377R4) has been assessed. Many thanks for your response to our revision requests. However, there is one final editorial request we would like you to address before we accept the manuscript, detailed below.

---

Currently, the statement in your 'Consent for publication' section is incomplete. Please clarify whether written informed consent for publication was obtained from the mother of the patient for the publication of her own (as well as the baby's) personal and clinical details.

---

Once you have made the necessary corrections, please submit a revised manuscript online at:  
<https://www.editorialmanager.com/bped/>

If you have forgotten your password, please use the 'Send Login Details' link on the login page at <https://www.editorialmanager.com/bped/>. For security reasons, your password will be reset.

Please also ensure that your revised manuscript conforms to the journal style, which can be found at the Submission Guidelines on the journal homepage.

A decision will be made once we have received your revised manuscript, which we expect by 05 Nov 2022.

Please note that you will not be able to add, remove, or change the order of authors once the editor has accepted your manuscript for publication. Any proposed changes to the authorship must be requested during peer-review, and adhere to our criteria for authorship as outlined in BioMed Central's policies. To request a change in authorship, please download the 'Request for change in authorship form' which can be found here - <http://www.biomedcentral.com/about/editorialpolicies#authorship>. Please note that incomplete forms will be rejected. Your request will be taken into consideration by the editor, and you will be advised whether any changes will be permitted. Please be aware that we may investigate, or ask your institute to investigate, any unauthorized attempts to change authorship or discrepancies in authorship between the submitted and revised versions of your manuscript.

Dear Dr RINGORINGO,

I am pleased to inform you that your manuscript "Gastrointestinal bleeding due to idiopathic early onset of vitamin K deficiency bleeding in a girl baby 50 minutes after birth: a rare case" (BPED-D-22-00377R5) has been accepted for publication in BMC Pediatrics.

If any final comments have been submitted from our reviewers or editors, these can be found at the foot of this email for your consideration.

Before publication, our production team will also check the format of your manuscript to ensure that it conforms to the standards of the journal. They will be in touch shortly to request any necessary changes, or to confirm that none are needed.

Articles in this journal may be held for a short period of time prior to publication.  
If you have any concerns please contact the journal.

Please do not hesitate to contact us if you have any questions regarding your manuscript and I hope that you will consider BMC Pediatrics again in the future.

If you wish to co-submit a data note to be published in BMC Research Notes (<https://bmcreresnotes.biomedcentral.com/about/introducing-data-notes>) you can do so by visiting our submission portal <https://www.editorialmanager.com/resn/>. Data notes support open data (<https://www.springernature.com/gp/open-research/open-data>) and help authors to comply with funder policies on data sharing. Please note that this additional service is entirely optional.

Best wishes,

Sarah Gray

Dear Author,

We are pleased to inform you that your paper is nearing publication. You can help us facilitate quick and accurate publication by using our e.Proofing system. The system will show you an HTML version of the article that you can correct online. In addition, you can view/download a PDF version for your reference.

As you are reviewing the proofs, please keep in mind the following:

- This is the only set of proofs you will see prior to publication.
- Only errors introduced during production process or that directly compromise the scientific integrity of the paper may be corrected.
- Any changes that contradict journal style will not be made.
- Any changes to scientific content (including figures) will require editorial review and approval.

Please check the author/editor names very carefully to ensure correct spelling, correct sequence of given and family names and that the given and family names have been correctly designated (NB the family name is highlighted in blue).

Please submit your corrections within 2 working days and make sure you fill out your response to any AUTHOR QUERIES raised during typesetting. Without your response to these queries, we will not be able to continue with the processing of your article for Online Publication.

Your article proofs are available at:
