### Re.: Notification of Acceptance

Dear Iryanti Nata,

I am happy to inform you that your paper titled: **Adsorption of Fe<sup>3+</sup> from aqueous solution onto rice husk biocomposite magnetic nanoparticle**, Reference No.: **JIC-CEGE 036** is accepted to be presented in JIC-CEGE 2019.

Here are some points that you need to prepare upon this notification:

1. Please revise your extended-abstract accordingly, based on our Editors' note as attached.
2. You must prepare the full paper following guidelines and template provided here: <http://bit.ly/JIC-CEGEfullpaper>  
*Note:* Your extended abstract will be included in the *book of abstracts* that will be distributed to the participants during the event, while the full paper, after your presentation, will be sent to reviewers for possible publication in the designated Scopus-indexed conference proceeding.
3. Submit your full-paper and pay conference registration via bank transfer. Information of payment is provided here: <http://bit.ly/JIC-CEGEpayment> . Send your bank transfer proof by e-mail to [icoee.its@gmail.com](mailto:icoee.its@gmail.com). We will give you the payment receipt during on-site registration on the 1 – 2 October 2019.
4. You must present your paper as scheduled, otherwise, your paper will not be included in the review process for publication in *IOP Conference Proceeding: Earth and Environmental Science*.
5. If your paper is accepted for publication, you are required to pay publication fee. Detail information can be found here: <http://bit.ly/JIC-CEGEpubfee>
6. All payment must be made via bank transfer to:  
BANK BNI VA: 8257715040310001  
Account Name: Seminar Internasional Departemen Teknik Lingkungan FTSLK ITS  
Swift Code: BNINIDJA

Please feel free to contact us via this email If you have any question. Be sure to mention your reference number on every correspondence.

See you in Surabaya!

Sincerely yours,

ARTICLE REVIEW FORM

<b>Title</b>	<b>Adsorption of Fe<sup>3+</sup> ion from Aqueous Solution onto Rice Husk Biocomposite Magnetic Nanoparticle</b>
<b>Ref. No</b>	<b>JIC-CEGE 036</b>

**COMMENTS**

*Note: Plagiarism and manuscript formatting has been checked by our Copy Editor. Please provide comments for improvement of manuscript quality in term of manuscript content and whether it has been written according to scientific writing convention. You can use the form below, or alternatively, you can put your comment within the manuscript.*

**GENERAL REVIEW**

Bahasa Inggris dalam tulisan ini perlu diupgrade  
Metode perlu dilengkapi dengan preparasi sampel, dsb  
Pustaka dan Analisis perlu diperdalam

**DETAIL REVIEW**

**ABSTRACT.**

Tidak jelas dengan apa yang dimaksud magnetic – nanopartikel. Bagaimana preparasi dan proses komposit  
Pada penjelasan hasil tidak jelas dengan pengaruh biokomposit pada adsorpsi, TSS, dan intensitas warna.

**INTRODUCTION**

Has the Introduction been written properly? Kurang mendalam pembahasannya  
Do you have any suggestion for improvement of the Introduction writing? Perlu ditambahkan teori atau pendukung yang menjelaskan bagaimana MNP komposit bisa menjadi adsorbent dan menurunkan TSS/warna

**METHOD**

Has the Method been written clearly? Perlu diperjelas terutama karakteristik sampel yang digunakan  
Do you have any suggestion for improvement of the Method writing? Perlu ditambahkan karakteristik awal sampel yang digunakan dalam penelitian ini. Konsentrasi awal parameter-parameter yang diukur dlm penelitian

**RESULTS AND DISCUSSION**

Has the Results and Discussion been written thoroughly? Did the authors cite adequate reference to discuss the results?  
Do you have any suggestion for improvement of the Results and Discussion writing? Penentuan kondisi optimum perlu ditinjau ulang, perlu analisis yang lebih mendalam.

## CONCLUSION

Has the Conclusion drawn properly?

Do you have any suggestion for improvement of the Conclusion writing? Secara umum tidak jelas hasil ..% pada kondisi karakteristik sampel awal yang bagaimana? Berapa konsentrasi awal dsb.

Sepertinya harus disinkronkan dengan sifat data figure 1... optimum pada menit 30.. ???
