AUTHORS: Abdul Ghofur, Faishal Arifin, Rachmat Subagyo, Aqli Mursadin, Ahmad Syarief and Apip Amrullah

----- Overall evaluation -----

SCORE: 0 (borderline paper)

----- TEXT:

The paper is poorly written, bad in organization and does not match with the paper template. The terms are written inconsistently (e.g PLTU and pltu), units are written in mess, tables are inconsistent and use different font, figures legend contain Bahasa Indonesia and references need to be written correctly (please see the template). Note : Put the table in one page, if it is too long put the additional header in the next page.

We have received your article, but there are some things that need minor improvements,

1. Writing shorthand abbreviations
2. citation does not match the bibliography
3. The writing of the library is adjusted to the existing template
