Hello!

Your article has been sent for review. The article is still at work. As soon as there is a response from reviewers, we will contact you.

Reviewing is an integral part of the scientific publication, which confirms the high quality of scientific articles. Reviewers are experts who invest their time to improve your article! In the process of reviewing the manuscript should become:

- More reliable. Reviewers may point out gaps in your work that require more detailed explanation or additional experimentation.
- Easier to understand. If you have a difficult time with your work, the reviewers may ask you to correct it.
- More useful. Reviewers review your research for importance within their subject area. Another aspect of having a review policy with journals is that the editorial team wants to make sure that they publish only high-quality materials in their own publication. If a journal does not publish good quality work, it will reputation and the number of readers will decrease.

We are in touch 24/7.

with respect, general manager
