Dear Andi Khosla Maharikka,

References should be presented in a full form (in APA style).

We reviewed the file it references. Correct the references listed in COMMENTS and check the remaining references from it to the end.

The reviewer has noticed that you have multiple references in the paper from the same source, suggesting that we deliberately cite that source (i.e. J. Internet. 2019). Leave those such references, and delete the others.

Also, this applies to other same source cited more than once.

After the corrections you should send us your paper again as soon as possible.

Best regards,
