The First International Symposium on Civil Engineering and Environmental Research 01/11/2021 - 02/11/2021 Online

Accepted papers received: 14 February 2022

Published online: 30 March 2022

Preface

011001

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Preface](#)

[Open abstract](#), [Preface](#) [View article](#), [Preface](#) [PDF](#), [Preface](#)

011002

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Peer Review Statement](#)

[Open abstract](#), [Peer Review Statement](#) [View article](#), [Peer Review Statement](#) [PDF](#), [Peer Review Statement](#)

Structural and material engineering

012001

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Mechanical Performance of Mortar and Concrete Using Borneo Wood Sawdust as Replacement of Fine Aggregate](#)

I Prasetia, D P Putera and A Y Pratiwi

[Open abstract](#), [Mechanical Performance of Mortar and Concrete Using Borneo Wood Sawdust as Replacement of Fine Aggregate](#) [View article](#), [Mechanical Performance of Mortar and Concrete Using Borneo Wood Sawdust as Replacement of Fine Aggregate](#) [PDF](#), [Mechanical Performance of Mortar and Concrete Using Borneo Wood Sawdust as Replacement of Fine Aggregate](#)

012002

THE FOLLOWING ARTICLE IS OPEN ACCESS

[The Effect of Variations of Fly Ash Filling Materials on Porous Concrete Using Local Aggregates from South Borneo](#)

E Purnamasari, A Gazali and M B Januar

[Open abstract](#), The Effect of Variations of Fly Ash Filling Materials on Porous Concrete Using Local Aggregates from South Borneo [View article](#), The Effect of Variations of Fly Ash Filling Materials on Porous Concrete Using Local Aggregates from South Borneo [PDF](#), The Effect of Variations of Fly Ash Filling Materials on Porous Concrete Using Local Aggregates from South Borneo

012003

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Recycled Coarse Aggregate from Concrete Waste Using DMDA for Concrete](#)

H A R Canseco-Tuñacao, K Remoto, K Melendres and I M Deguzman

[Open abstract](#), Recycled Coarse Aggregate from Concrete Waste Using DMDA for Concrete [View article](#), Recycled Coarse Aggregate from Concrete Waste Using DMDA for Concrete [PDF](#), Recycled Coarse Aggregate from Concrete Waste Using DMDA for Concrete

012004

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Effect of cement paste distribution on pervious concrete with varying water-to-cement ratios and aggregate sizes](#)

H A R Canseco-Tuñacao, A F A Oraya, J A Chia, N G Fruto and S C Mendoza

[Open abstract](#), Effect of cement paste distribution on pervious concrete with varying water-to-cement ratios and aggregate sizes [View article](#), Effect of cement paste distribution on pervious concrete with varying water-to-cement ratios and aggregate sizes [PDF](#), Effect of cement paste distribution on pervious concrete with varying water-to-cement ratios and aggregate sizes

012005

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Optimisation of Recoverable Horizontal Deformation and Size Ratio of Compacted Rubberized Stone Mastic Asphalt Based on Rubber and Binder Contents Using Response Surface Methodology](#)

Sajjad Noura, Abdulnaser M. Al Sabaeei, Gailan Ismat, Sina Mirzapour Mounes, Ratnasamy Muniandi, Ramez Al-Mansob and Alan Carter

[Open abstract](#), Optimisation of Recoverable Horizontal Deformation and Size Ratio of Compacted Rubberized Stone Mastic Asphalt Based on Rubber and Binder Contents Using Response Surface Methodology [View article](#), Optimisation of Recoverable Horizontal Deformation and Size Ratio of Compacted Rubberized Stone Mastic Asphalt Based on Rubber and Binder Contents Using Response Surface Methodology [PDF](#), Optimisation of Recoverable Horizontal Deformation and Size Ratio of Compacted Rubberized Stone Mastic Asphalt Based on Rubber and Binder Contents Using Response Surface Methodology

012006

THE FOLLOWING ARTICLE IS OPEN ACCESS

[The Effect of pH Water on the Concrete Mixtures and Curing Condition on the Compressive Strength of Concrete](#)

I T Wicaksono and R Nurwidayati

[Open abstract](#), The Effect of pH Water on the Concrete Mixtures and Curing Condition on the Compressive Strength of Concrete [View article](#), The Effect of pH Water on the Concrete Mixtures and Curing Condition on the Compressive Strength of Concrete [PDF](#), The Effect of pH Water on the Concrete Mixtures and Curing Condition on the Compressive Strength of Concrete

012007

THE FOLLOWING ARTICLE IS OPEN ACCESS

[The Feasibility and Performance of Self Compacting Concrete on Various Size and Proportion of Locally Coarse Aggregate](#)

N Chairunnisa, W A Krasna and D Nurdiansyah

[Open abstract](#), [The Feasibility and Performance of Self Compacting Concrete on Various Size and Proportion of Locally Coarse Aggregate](#) [View article](#), [The Feasibility and Performance of Self Compacting Concrete on Various Size and Proportion of Locally Coarse Aggregate](#) [PDF](#), [The Feasibility and Performance of Self Compacting Concrete on Various Size and Proportion of Locally Coarse Aggregate](#)

012008

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Thermal Cracking Mitigation in Mass Concrete on Preplacing Aggregate Concrete Method with Pozzolanic Materials](#)

Lo'ong S Daniel and N Chairunnisa

[Open abstract](#), [Thermal Cracking Mitigation in Mass Concrete on Preplacing Aggregate Concrete Method with Pozzolanic Materials](#) [View article](#), [Thermal Cracking Mitigation in Mass Concrete on Preplacing Aggregate Concrete Method with Pozzolanic Materials](#) [PDF](#), [Thermal Cracking Mitigation in Mass Concrete on Preplacing Aggregate Concrete Method with Pozzolanic Materials](#)

012009

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Utilization of Coconut Shell Ash as a Substitute Material in Paving Block Manufacturing](#)

R Nurwidayati and N N Azima

[Open abstract](#), [Utilization of Coconut Shell Ash as a Substitute Material in Paving Block Manufacturing](#) [View article](#), [Utilization of Coconut Shell Ash as a Substitute Material in Paving Block Manufacturing](#) [PDF](#), [Utilization of Coconut Shell Ash as a Substitute Material in Paving Block Manufacturing](#)

Water resources engineering

012010

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Flood Mitigation in Banjar Regency, South Kalimantan, Indonesia in 2021: Between Hydro-meteorological factor and Anthropogenic factor](#)

Novitasari Novitasari and Holdani Kurdi

[Open abstract](#), [Flood Mitigation in Banjar Regency, South Kalimantan, Indonesia in 2021: Between Hydro-meteorological factor and Anthropogenic factor](#) [View article](#), [Flood Mitigation in Banjar Regency, South Kalimantan, Indonesia in 2021: Between Hydro-meteorological factor and Anthropogenic factor](#) [PDF](#), [Flood Mitigation in Banjar Regency, South Kalimantan, Indonesia in 2021: Between Hydro-meteorological factor and Anthropogenic factor](#)

012011

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Analysis of hydrology parameters in a tropical wetland as an early approach to identify a drought risk in a peatland area](#)

Nilna Amal, Noordiah Helda, Achmad Rusdiansyah, M. Ramadhani Wijayanto and Fadhiil Muammar

[Open abstract](#), [Analysis of hydrology parameters in a tropical wetland as an early approach to identify a drought risk in a peatland area](#) [View article](#), [Analysis of hydrology parameters in a tropical wetland as an early approach to identify a drought risk in a peatland area](#) [PDF](#), [Analysis of hydrology parameters in a tropical wetland as an early approach to identify a drought risk in a peatland area](#)

012012

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Identification of quality of irrigation water Danda Besar Swamp Irrigation Area in Barito Kuala District, South Kalimantan, Indonesia](#)

S R Noorsaly, M Yuichiro and Maya Amalia Achyadi

[Open abstract](#), Identification of quality of irrigation water Danda Besar Swamp Irrigation Area in Barito Kuala District, South Kalimantan, Indonesia [View article](#), Identification of quality of irrigation water Danda Besar Swamp Irrigation Area in Barito Kuala District, South Kalimantan, Indonesia [PDF](#), Identification of quality of irrigation water Danda Besar Swamp Irrigation Area in Barito Kuala District, South Kalimantan, Indonesia

012013

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Performance of Drip and Mist Irrigation to Supply Water for Vegetable](#)

Murtiningrum Murtiningrum, Ilham Nawan Rasyid, Lia Christyaningrum, Erlina Fahrnisia and Ngadisih Ngadisih

[Open abstract](#), Performance of Drip and Mist Irrigation to Supply Water for Vegetable [View article](#), Performance of Drip and Mist Irrigation to Supply Water for Vegetable [PDF](#), Performance of Drip and Mist Irrigation to Supply Water for Vegetable

012014

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Variability of Discharge Inflow in Wonorejo Reservoir, Indonesia](#)

Nastasia F. Margini, Wasis Wardoyo and Nadjadji Anwar

[Open abstract](#), Variability of Discharge Inflow in Wonorejo Reservoir, Indonesia [View article](#), Variability of Discharge Inflow in Wonorejo Reservoir, Indonesia [PDF](#), Variability of Discharge Inflow in Wonorejo Reservoir, Indonesia

Environmental engineering

012015

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Safe Construction And Visual Pollution Of Billboards Along Main Street](#)

Sophia Andjarsari, A. Tutut Subadyo and Nurhamdoko Bonifacius

[Open abstract](#), Safe Construction And Visual Pollution Of Billboards Along Main Street [View article](#), Safe Construction And Visual Pollution Of Billboards Along Main Street [PDF](#), Safe Construction And Visual Pollution Of Billboards Along Main Street

012016

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Spatial based mapping of londerang peatprotected revegetation](#)

Siti Umi Kalsum, G M Saragih and Misbahul Munir

[Open abstract](#), Spatial based mapping of londerang peatprotected revegetation [View article](#), Spatial based mapping of londerang peatprotected revegetation [PDF](#), Spatial based mapping of londerang peatprotected revegetation

012017

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Assessment of groundwater quality in Randublatung Groundwater Basin](#)

A Hartono, H Hendrayana and Akmaluddin

[Open abstract](#), Assessment of groundwater quality in Randublatung Groundwater Basin [View article](#), Assessment of groundwater quality in Randublatung Groundwater Basin [PDF](#), Assessment of groundwater quality in Randublatung Groundwater Basin

012018

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Eco-design concept of street corridors as a city image forming](#)

Sjafril Amir, Nurhamdoko Bonifacius and Dina Poerwoningsih

[Open abstract](#), Eco-design concept of street corridors as a city image forming [View article](#), Eco-design concept of street corridors as a city image forming [PDF](#), Eco-design concept of street corridors as a city image forming

012019

THE FOLLOWING ARTICLE IS OPEN ACCESS

[One-Way Flow System Water Quality Modelling of Terantang Reclamation Channel](#)

Rony Riduan, Riza Miftahul Khair, Lovina Gianina and M. Istiqlal Hasibuan

[Open abstract](#), One-Way Flow System Water Quality Modelling of Terantang Reclamation Channel [View article](#), One-Way Flow System Water Quality Modelling of Terantang Reclamation Channel [PDF](#), One-Way Flow System Water Quality Modelling of Terantang Reclamation Channel

012020

THE FOLLOWING ARTICLE IS OPEN ACCESS

[The potency of fern stem as the carbon material for clay-based ceramic filter](#)

Yenni Ciawi, I Made Alit Karyawan Salain and Anak Agung Gede Sutapa

[Open abstract](#), The potency of fern stem as the carbon material for clay-based ceramic filter [View article](#), The potency of fern stem as the carbon material for clay-based ceramic filter [PDF](#), The potency of fern stem as the carbon material for clay-based ceramic filter

012021

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Analysis of Potential Utilization of Landfill Materials \(Case Study: Sumur Batu Landfill, Bekasi\)](#)

I Made Wahyu Widyarsana and Suci Ameliya Tambunan

[Open abstract](#), Analysis of Potential Utilization of Landfill Materials (Case Study: Sumur Batu Landfill, Bekasi) [View article](#), Analysis of Potential Utilization of Landfill Materials (Case Study: Sumur Batu Landfill, Bekasi) [PDF](#), Analysis of Potential Utilization of Landfill Materials (Case Study: Sumur Batu Landfill, Bekasi)

012022

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Source mapping using OBIA of coconut, a sustainable construction material](#)

A F A Oraya, K K G Adriatico and L A Chiu

[Open abstract](#), Source mapping using OBIA of coconut, a sustainable construction material [View article](#), Source mapping using OBIA of coconut, a sustainable construction material [PDF](#), Source mapping using OBIA of coconut, a sustainable construction material

012023

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Application of activated charcoal- sugarcane bagasse material for adsorption of COD \(Chemical Oxygen Demand\) on the sasirangan wastewater](#)

R Noor, N Annisa, D M Paramitha and H Prasetya

[Open abstract](#), Application of activated charcoal- sugarcane bagasse material for adsorption of COD (Chemical Oxygen Demand) on the sasirangan wastewater [View article](#), Application of activated charcoal- sugarcane

bagasse material for adsorption of COD (Chemical Oxygen Demand) on the sasirangan wastewater [PDF](#), Application of activated charcoal- sugarcane bagasse material for adsorption of COD (Chemical Oxygen Demand) on the sasirangan wastewater

012024

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Edible Film Fabrication derived from Nagara Starch and Red Ginger Essential Oil as a Package of Instant Noodles Seasoning](#)

Muthia Elma, Eggy A. Pradana, Natalia Sihombing, Rizky Noor Thala'ah, Aulia Rahma and Erdina L. A. Rampun

[Open abstract](#), [Edible Film Fabrication derived from Nagara Starch and Red Ginger Essential Oil as a Package of Instant Noodles Seasoning](#) [View article](#), [Edible Film Fabrication derived from Nagara Starch and Red Ginger Essential Oil as a Package of Instant Noodles Seasoning](#) [PDF](#), [Edible Film Fabrication derived from Nagara Starch and Red Ginger Essential Oil as a Package of Instant Noodles Seasoning](#)

012025

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Pollutant Index Method in Determining the Water Quality Status of the Cimahi River in West Bandung Regency](#)

Eka Wardhani and Yunus Primalaksono

[Open abstract](#), [Pollutant Index Method in Determining the Water Quality Status of the Cimahi River in West Bandung Regency](#) [View article](#), [Pollutant Index Method in Determining the Water Quality Status of the Cimahi River in West Bandung Regency](#) [PDF](#), [Pollutant Index Method in Determining the Water Quality Status of the Cimahi River in West Bandung Regency](#)

012026

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Garlic essential oil as an edible film antibacterial agent derived from Nagara sweet potato starch applied for packaging of Indonesian Traditional Food - Dodol](#)

N Sihombing, M Elma, R N Thala'ah, F A Simatupang, E A Pradana and A Rahma

[Open abstract](#), [Garlic essential oil as an edible film antibacterial agent derived from Nagara sweet potato starch applied for packaging of Indonesian Traditional Food - Dodol](#) [View article](#), [Garlic essential oil as an edible film antibacterial agent derived from Nagara sweet potato starch applied for packaging of Indonesian Traditional Food - Dodol](#) [PDF](#), [Garlic essential oil as an edible film antibacterial agent derived from Nagara sweet potato starch applied for packaging of Indonesian Traditional Food - Dodol](#)

Geotechnical engineering

012027

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Stabilization of Soft Clay from Bukit Rawi using Portland Composite Cement](#)

Y F Arifin and R F Rahmah

[Open abstract](#), [Stabilization of Soft Clay from Bukit Rawi using Portland Composite Cement](#) [View article](#), [Stabilization of Soft Clay from Bukit Rawi using Portland Composite Cement](#) [PDF](#), [Stabilization of Soft Clay from Bukit Rawi using Portland Composite Cement](#)

012028

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Utilization of Lime and Rice Husk Ash for Peat Soil Stabilization in Different Water Content Condition](#)

Muhammad Afief Ma'ruf, Faisal Estu Yulianto, Mila Kusuma Wardani, Iswinarti and Yerry Kahaditu Firmansyah

[Open abstract](#), [Utilization of Lime and Rice Husk Ash for Peat Soil Stabilization in Different Water Content Condition](#) [View article](#), [Utilization of Lime and Rice Husk Ash for Peat Soil Stabilization in Different Water Content Condition](#) [PDF](#), [Utilization of Lime and Rice Husk Ash for Peat Soil Stabilization in Different Water Content Condition](#)

012029

THE FOLLOWING ARTICLE IS OPEN ACCESS

[Investigation of enhancing industrial waste as a soft soil stabilizer](#)

Ade Yuniati Pratiwi, Irfan Prasetya, M. Yahya and Rustam Effendi

[Open abstract](#), [Investigation of enhancing industrial waste as a soft soil stabilizer](#) [View article](#), [Investigation of enhancing industrial waste as a soft soil stabilizer](#) [PDF](#), [Investigation of enhancing industrial waste as a soft soil stabilizer](#)
