Hello,

Your paper is preliminary accepted for publication. Please find attached the preliminary acceptance letter.

After this acceptance you should pay 250 USD for publication (open access). As the payment and bank transfer may be time consuming you may start the process of payment right now; we will send you the invoice immediately after the payment. Please let us know when the payment is done (scanned receipt) in order to start the publishing process.

In case the peer-reviews suggest rejection (the paper is still at reviewers), we will return the payment. The payment will not be returned in case of withdrawal request by authors or simply lack of feedback.

Please note that the Publishing House Policy does not allow to start the manuscript editing prior payment.

Here are the info for payment;

take care to write correct the details:

Beneficiary: Bioflux SRL
City: Cluj-Napoca
Country: Romania, European Union

SWIFT CODE of the bank: BTRLRO22

Account USD: RO68BTRL01302202L28614XX

Bank: BANCA TRANSILVANIA

Important! When bank transfer is used to pay a publication fee, please pay attention to which modality of payment you chose! There are three options: Ben, Our, Us.

Use always "Us" option (meaning that all the bank transfer costs are in your concern/ authors support them and not the publisher). If you forgot to mention that and you let the bank to set "Ben" or "Our" options, we receive about 235 usd instead of 250 usd. Such payments are not valid and you need to pay again for the rest of the sum and one more transfer charge. This situation is not desirable.

There is a second method of payment, by Paypal, with credit card. Please let me know if you choose this method and I will redirect you to our colleague which is in charge of this procedure.

Let me know if you need more details.

Thank you for publishing with us!

Best regards,

Tudor Papuc

Hello,

At this moment, there is one positive review, and I have asked the second reviewer to hurry with his evaluation.

I will also need a little time after the second evaluation arrives to correct the English and formatting.

So, you will most likely receive the paper for revisions around 20-25 October.

Best Regards,

Hello,

I am back with the paper with comments. I want to congratulate you for the quality of the paper. It is rare that we receive such good quality papers, with so little to change. There are only a few comments that can be solved quickly.

Please mark the corrections with yellow highlight or track changes.

Please read this version carefully. If you want to make modifications, please do so, but mark them with track changes or yellow highlight. Unmarked changes will not be considered. This would be the last time you can make changes to this paper. Please note that we cannot change anything in the paper after publication.

After I get the paper with modifications, I will publish it in 1-3 days. I will let you know after the paper is published.

Thank you,

Best regards,
Tudor Papuc
