Dear Dr. Pasani,

Due to your involvement in the field and the research you published in your paper, "The ability of mathematics education students to build counterexamples in solving cyclic group problems," IntechOpen invites you to contribute a chapter to "STEM Education - Recent Trends and New Advances," an Open Access book edited by Dr. Muhammad Azeem Ashraf from Hunan University, China and Dr. Samson Maekele Tsegay.

This book is part of the "Education and Human Development" Book Series edited by Series Editor Dr. Katherine K.M. Stavropoulos.

Work with an internationally recognized peer group and gain increased visibility for your published work.

Please visit the book project page to start the submission process at:

to me

Dear Associate Prof. Pasani,

Welcome!

Thank you for accepting my invitation to write a chapter for the book project "STEM Education - Recent Trends and New Advances."

I am happy to welcome you onboard to this book project and am excited about our first collaboration!

I want to introduce myself briefly. My name is Ana Javor, and I will be your Author Service Manager (imagine me as your dedicated publishing assistant), here to support you through every step of the publishing process.

Now, to publish your research Academic Editor needs to check and to see if your research is within the book's scope.

YOUR FIRST STEP, within the NEXT 5 days is:

If you have not already done so, please submit your chapter proposal by providing:

- A tentative chapter title
- Keywords
- Short topic description (100 - 150 words).

You can do that via your Author Panel: <https://mts.intechopen.com/counter/myprofile-dashboard>

Your Author Panel (Manuscript Tracking System) will be your online tool to guide you through the publishing process and where you will submit your work.

Once you have completed your chapter proposal, in order to speed up the process we highly recommend that you complete the NEXT STEP: submit your full chapter.

If you have any additional questions or need help or clarification of any kind, please feel free to contact me via email, and I will be more than happy to assist you.

I am looking forward to receiving your proposal soon!

Thank you,

Ana Javor  
Author Service Manager

Dear Dr. Pasani,

Thank you for your message.

I would like to inform you that at this time, we would need you to submit your chapter proposal, after which it is going to be checked by our Editor.

Once the chapter proposal will be approved, it will be time to write your full chapter, for which the deadline is set to the 10th of June, 2023.

If you need anything else, feel free to inform me.

With kind regards,

Ana

Dear Associate Prof. Pasani,

I hope this email finds you well.

I have recently sent short information about the next step regarding your chapter proposal submission and wanted to check back in.

If you missed that first email, I would like to ask you to submit your chapter proposal by providing a tentative chapter title, keywords, and a short topic description of your chapter (100 - 150 words).

You can do that via your Author

Panel: [https://mts.intechopen.com/addchapter/index/books\\_id/12700/chapters\\_id/317743](https://mts.intechopen.com/addchapter/index/books_id/12700/chapters_id/317743)

Dr. Muhammad Azeem Ashraf is the Academic Editor for this publication, and is expecting to read your chapter proposal.

Please feel free to reach out to me for any assistance regarding your submission or any other publication related questions!

Thank you,

## Book Chapter Template

# Replace this text with the Title of your chapter

Replace the entirety of this text with the following:

**All Authors'/Co-Authors' First names, Last names, Institution(s), City, Country, e-mail address of the Corresponding Author**

Put names **always** in order: FIRST name, LAST name.

**DO NOT** use the pattern: last name, first name;

Patronyms fall into the category of first names.

Affiliations **MUST** be in English.

## Abstract

Replace the entirety of this text with your abstract. The abstract **MUST** be unstructured and in a single paragraph. It should briefly introduce the manuscript, not exceeding 200 words. Citations **MUST** not be included in the abstract. Any abstracts spanning multiple paragraphs will be converted to single-paragraph abstracts during typesetting.

**Keywords:** Replace this text with your keywords. Use a minimum of 5 keywords to describe the topic of your manuscript; divide each keyword with a comma.

## 1. Introduction

Replace the entirety of this text with the introduction to your chapter. The introduction section should provide a context for your manuscript and should be numbered as first heading. When preparing the introduction, please bear in mind that some readers will not be experts in your field of research.

## 2. Replace this text with your section Heading

Replace the entirety of this text with the main body of your chapter. The body is where the author explains experiments, presents and interprets data of one's research. Authors are free to decide how the main body

will be structured. However, you are required to have at least one heading. Please ensure that either British or American English is used consistently in your chapter.

### **Citing Sources**

When you are citing sources, the citations should be set in numbered format. All the references given in the list of references should be cited in the body of the text. Please set citations in square brackets keeping the below points in mind:

Correct format: [4–6, 9]; [1, 2]

Incorrect format: [4-6,9], [4, 5, 6, 9], [4] [5] [6] [9]; [1-2]

The numbers should be listed in sequential order.

### **Figures and Tables**

**Figures** must be high resolution (300dpi or higher). Acceptable image formats are .JPEG, .PNG, .TIFF, .BMP, .EPS, .WMF, .EMF or .PDF. Make sure to number your figures accordingly. Figures should not exceed 130mm (5,118 inches) in width, and 184 mm (7,244 inches) in height. Larger figures will be resized to fit within the appropriate dimensions.

Insert the figure caption beneath the Figure itself. If not part of the figure, figure legend is to be placed beneath figure caption. When referring to a figure in the body of the text, the word “Figure” is used. The order of main citations of figures in the text must be sequential.

**Tables** should not be submitted as image formats (i.e. .jpeg, .tiff). All tables must be in Portrait orientation and must be max 130mm (5,118 inches) wide.

Insert the table caption beneath the table. If not part of the table, the table legend is to be placed beneath the table caption.

All figures and tables must be cited in the text by number (e.g., Figure 1, Table 1). The full word is used, not abbreviation (e.g. “Tab.”, “Fig”). The order of main citations of figures and tables in the text must be sequential, from 1 to n, where n marks the last figure/table in the chapter.

Correct: Figure 1, Figure 2, Table 6, Table 8

Incorrect: Fig 1.1, Figure 1.1, Tab 4.3., Table 4.3.

**Important!** To reuse figures and tables that have already been published elsewhere you are required to obtain permission from the copyright owner(s), for both the print and online format.

### **Videos**

You may submit supplemental video material for your chapter, and it will be featured as a link inside the text.

**Always put a placeholder text in the body of your manuscript, in the place where you would like to have the video link placed. Video links can also be placed in a unnumbered section titled “Video materials” at the end of the chapter.**

Any video file **must** be cited or referred to in the main text of your manuscript (i.e. Video 1, Video 2).

Allowed video file formats are: QuickTime movie (.mov); Audio file (.wav); MPEG/MPG animation (.mpg, .mp4)

Max size: 100MB.

Please note that the video and audio cannot be embedded, even in the online version of the chapter. Video must be uploaded as a separate file in a zipped archive.

Example: Video 1 available from (can be viewed at) <http://bit.ly/29nKuLh>

### **Equations**

For equations, Use equation-editor programs such as “MathType” or “Microsoft equation”.

Manuscripts with the equations imported as image formats (e.g. .jpeg, .tiff) are NOT accepted and will be returned to the Author for corrections. Equations are to be numbered sequentially, with Arabic numerals in brackets, from 1 upwards. (e.g (1)). When referring to specific equation please use next abbreviation (Eq. (1)).

### **Acronyms and Abbreviations**

Spell out acronyms at first use with the abbreviation following in parentheses.

If a term/expansion is a proper noun (i.e., the name of an organization, university, standard test and questionnaire, etc.), it should be set in Title Case.

Examples: British Broadcasting Corporation (BBC), University of California, Los Angeles (UCLA).

In case of just a normal expansion of an acronym and not a proper noun, the term should be set as sentence case. Examples: polycystic ovary syndrome (PCOS), coefficient of performance (COP), genetic algorithm (GA).

Do not format the terms with boldface or italic, like **polycystic ovary syndrome** (PCOS) or *quality assurance* (QA). Commonly used acronyms (e.g. MRI, UNICEF, etc.) do not need to be explained.

### **Subsections**

Your chapter will be divided into subsections. Please number section headings based on their hierarchy, with Arabic numbering.

To preserve the subheading formatting, select the subheading text and apply the correct Word style (Home > Styles). For main section titles apply the style Heading 1 IntechOpen. For each subsection apply the style Heading 2 Intech, for any further sub-subsections apply the style Heading 3 IntechOpen.

For example:

1. Introduction (Heading 1 IntechOpen)
2. Control and eradication strategies for animal brucellosis (Heading 1 IntechOpen)
  - 2.1 Management and biosecurity (Heading 2 IntechOpen)
  - 2.2 Test and slaughter programs (Heading 2 IntechOpen)
    - 2.2.1 Indirect diagnostic tests (Heading 3 IntechOpen)
3. Conclusions (Heading 1 IntechOpen)

### **Appendices and Nomenclature**

Place appendix and nomenclature before Reference list.

### **Conclusion(s)**

It is preferable to include a Conclusion(s) section which will summarize the content of the book chapter.

### **Acknowledgments**

Replace the entirety of this text with acknowledgments. Usually, the acknowledgments section includes the names of people or institutions who in some way contributed to the work, but do not fit the criteria to be listed as the authors.

The authorship criteria are listed in our Authorship Policy:  
<https://www.intechopen.com/page/authorship-policy>.

This section of your manuscript may also include funding information.

## Conflict of Interest

If you have any conflicts of interest, please declare them here. If no conflict exists, please put the text: "The authors declare no conflict of interest." or delete this entire section

## Notes/Thanks/Other declarations

Place any other declarations, such as "Notes", "Thanks", etc. in before the References section. Assign the appropriate heading. Do NOT put your short biography in this section. It will be removed.

## References

Replace the entirety of this text with your references. IntechOpen Book Chapter Layout uses the numbered citation method for reference formatting, with sequential numbering in the text, and respective ordering in a list at the end of the paper.

The list should contain at least five references and should be arranged in the order of citation in the text, not in the alphabetical order.

List only one reference per reference number.

Throughout the text, each reference number should be enclosed by square brackets (i.e. "in [1] ...", or as "in reference [1] ..." or "Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore. [1]")

(Note: It is not necessary to mention the authors of a reference, unless the mention is relevant to the text.)

Phrases such as "For example," should not introduce references in the list, but should instead be given in square brackets in the text, followed by the reference number (i.e., "For example, see [5].")

Multiple citations within a single set of brackets should be separated by commas. Where there are three or more sequential citations, they should be given as a range [2, 7-9, 13]. Therefore, formatting the references properly is crucial.

Dear Dr. Pasani,

I hope you are doing well.

Since the Academic Editor has reviewed and accepted your chapter proposal for this book, I wanted to see how your full chapter is coming along.

In order to provide you with the best possible support, I thought that it might be helpful to attach the Author Guidelines to this email if you need help with formatting your chapter.

Please note that once you submit your chapter, the chapter will undergo peer review.

Can I help you with anything else at this time?

The deadline for your full chapter submission is approaching, and we look forward to your submission and subsequent review results!

Should you need any additional information or clarification of the process steps, or the Open Access Publishing Fee, let me know.

Kind regards,

Ana

## EDITOR'S COMMENTS

### DEVELOPING COLLABORATIVE SKILLS THROUGH STEM APPROACH

This is an important chapter that focuses on developing technology-based collaborative skills through STEM approach to reflect the trend of integrating technology into education. The chapter has raised many important issues. Yet, the author needs to consider the following points to improve the chapter further:

1. Please include an abstract and keywords.
2. Please put a title for the first section that starts with: Collaborative learning ..... It could be INTRODUCTION.

-It is also important to add one paragraph or a few sentences at the end of the section to introduce

the main argument and contribution of the chapter. For example, the author has stated that 'the study provides compelling evidence that collaborative skills effectively address critical issues in STEM education'.

-It is vital to highlight the method and resources used to write the chapter (for example, journal articles, policy documents, etc.).

3. First write the full extension of the acronyms used—for example, PISA, OECD—then the shortform can be used afterward.

4. Change the intext citation/reference into numbering and arrange the references accordingly (see the required guidelines)

5. Please revise your writing as you have 23% similarity index.

Dear Associate Prof. Pasani,

Your chapter in the book under the working title "STEM Education - Recent Trends and New Advances" ISBN 978-1-83769-256-9 is ready for proof corrections.

NEXT STEP: Proof Corrections  
DEADLINE: 21 November, 2023

Please log into your Author Panel:  
<https://mts.intechopen.com/booksprocess/index/chapter/317743> to access the Typeset Proof of your chapter.

Your next steps:

1. Download the Typeset Proof and the Proof Corrections form on your computer;
2. In the Typeset Proof, carefully examine *\*all\** the Author Queries [AQ] provided in the table on the first page;
3. Respond to *\*every\** Author Query in the Proof Corrections form; alternately, annotate the Typeset Proof PDF with your comments to each query;
4. Upload and send the completed Proof Corrections form or annotated Typeset Proof PDF via the Author Panel.

Note: All Author Queries that have been listed in the Typeset Proof must be answered. *\*Do not skip any query, and ensure that you address them all before uploading the form/annotated PDF.\**

Also, keep in mind that making changes to the content at this stage, such as adding new material, is not possible.

This is the final round of corrections before the publication of your work and further editing will not be possible.

Once the Proof Corrections are received, your chapter will be published via IntechOpen's Online First and assigned a DOI ahead of the final book publication, enabling your research chapter to be searchable and citable immediately.

Once the rest of the book is ready, it will become part of the broader publication.

If you have any questions, feel free to contact me by phone or email.

\*Please note that ONLY the corresponding author is authorized to submit corrections for your chapter. Please contact your corresponding author to coordinate any necessary changes.
