Dear Dr. Oktaviyanti,

NOTE: This e-mail is sent to you as one of the contributing authors. If you are not corresponding author, please co-ordinate with the author designated by your group as the corresponding author for this manuscript

Status of the manuscript titled 'Genistein improves the thickness of the vaginal epithelium of the rat model of vaginal atrophy through hormonal modulation and Hsp70' submitted by Dr. Pribakti Budinurdjaja has been changed and a copy of the mail is as;

-----  
Dear Dr. Budinurdjaja

With reference to your manuscript entitled 'Genistein improves the thickness of the vaginal epithelium of the rat model of vaginal atrophy through hormonal modulation and Hsp70', please re view the comments of the referees from our site <https://www.journalonweb.com/apjr>. The manuscript would be reconsidered after requisite modifications as per the comments and instructions provided by the journal.

If you wish to continue with the publication process, kindly make the changes according to the comments and upload the revised manuscript along with clarifications for all the comments clearly indicating the areas where the changes have been made. Do check the FAQ regarding replying to the comments and uploading a file. The contributors' form/images should be sent separately to the Administrative Office of the journal.

The journal allows four weeks for the revision of the manuscript. If we do not hear from you within this period, we will consider it as your decision to withdraw your article from publication. Please also note that submission of the revised article does not guarantee its final acceptance by the journal.

We thank you for submitting your valuable research work to Asian Pacific Journal of Reproduction.

With warm personal regards,

Editorial Team

Asian Pacific Journal of Reproduction

**Remarks:**

Dear Dr. Pribakti Budinurdjaja,

Thank you for submitting your manuscript to our journal.

Here, there are some comments from peer reviewers. Please revise your article as per the following comments. All your revisions should be marked in red. Besides, all the grammatical errors in the article should be removed. Thank you! Please improve the manuscript well and the revised manuscript will be assigned to the peer reviewers for assessment again. Thank you!

**[REVIEWER No. 1]:**

This is an important study because POP is a common disorder affecting women. However, to get it published, the authors will have to improve it. The authors need to correct grammar, spelling, and punctuation errors. Please use past tenses to describe methods and results.

This is an important study because POP is a common disorder affecting women. However, to get it published, the authors will have to improve it. The authors need to correct grammar, spelling, and punctuation errors.

**Please also see attached Referee file.**

-----

**[REVIEWER No.2]:**

Dear Author

This study aims to investigate whether administration of genistein can improve hormonal changes (estradiol and FSH), Hsp70 expression, and thickness of vaginal epithelial cells in rats modeled atrophy of the vagina.

-----  
Please look for language flow throughout the manuscript.

Please look for grammatical error through out the manuscript.

Please provide author contributions at the end of the text and before references.

Best regards,

Editor Lin

**Remarks:**

Dear Dr. Pribakti Budinurdjaja,

We have typesetted your manuscript apjr\_144\_19.

Now, I am sending the PDF version of the manuscript to you for proofreading.

1. Please carefully proofread all the content in this PDF file, including title, author's name, affiliation, et al. Please use annotation tools for PDF file to list these corrections or point out all the corrections very clearly.

2. Please pay attention to the authors' names and affiliations, and make sure that they are correct. Once the article is published online, it cannot be changed any more, so please read it carefully and make revisions to it by annotation tools in this PDF file.

3. Please check abbreviated name in the section of "How to cite this article" in the first page.

4. Please revise the article if there is any mistake (including language, grammar, et al).

5. Some references should be standard. Please also check and revise the references made in color. See the comments beside the related references.

6. Figure 4 should be provided in TIF format with 300 dpi resolution. And the width of the Figure 4 should be 10-11 cm. Figure 4 (upper panel) should be sent to our work email (apjr2012@163.com). Thank you!

In a word, please carefully proofread the text and be responsible for the paper. Thank you!

Please see the attached PDF file and send back your proofread version to us before 21 June 2020. Thank you!

Best regards,

Editor Lin
