Reviewer E:

Dear author,

Title convey the main idea and Interesting, main article match with abstract, there is clear aim of the research. However, abstract need some clarification and some writing error outlined in the article.

Addressing the following issues will make this paper more impactful:

- Title should not has abbreviation
- There are unclear abbreviations in the abstract like: AGEs and RAGE.

- Abstract: the objective of study is unclear, the manuscript become more interested to the readers if reconstructed correctly.
- Table 2 is too long if possible reconstructed to be more obvious.
- There is no conclusion section at the end of manuscript, if possible insert this important part.
- Figure 1 A and 2 images have low resolution, if possible increase the resolution to 300 DPI.

with best regards,
