
CERTIFICATE OF INVITATION

February 20, 2024, London

To Whom It May Concern,

IntechOpen is a pioneer of Open Access book publishing. We published our first Open Access book, Cutting Edge Robotics, in 2005. At IntechOpen today, we are committed to working with organizations and people who care about scientific discovery, putting the scientific community's academic needs first, and providing an Open Access environment where authors can maximize their contribution to scientific advancement. By opening up access to the world's scientific research book chapters, we aim to facilitate greater opportunity for collaboration, scientific discovery, and progress. When selecting authors to contribute to our publications, we apply rigorous criteria to ensure quality. We only invite experts within a particular subject area based on:

1. A proven, documented record of academic accomplishment
2. Relevance, quality, and impact of past publications
3. Knowledge of the subject area

After successfully meeting these criteria, Dr. Amal has been invited to participate in the book project under the working title "Hydrology - Current Research and Future Directions", ISBN 978-0-85466-056-8.

Sincerely,

IntechOpen

CHAPTER PROPOSAL REVIEW REPORT

CHAPTER: Applying hydrology field research in tropical peatlands is a challenging approach and managing ground data.
AUTHORS: Nilna Amal and Didy Wurjanto
ACADEMIC EDITOR: Murat Eyvaz
DATE: February 20, 2024

On behalf of the Academic Editor/s it is our pleasure to inform you that your chapter proposal titled "Applying hydrology field research in tropical peatlands is a challenging approach and managing ground data.", has been accepted for inclusion in the book "Hydrology - Current Research and Future Directions",

Definitive acceptance will be based on the full chapter review.

Thank you and congratulations,

IntechOpen

FULL CHAPTER REVIEW REPORT

CHAPTER: Applying hydrology field research in tropical peatlands is a challenging approach and managing ground data.
AUTHORS: Nilna Amal and Didy Wurjanto
ACADEMIC EDITOR: Murat Eyvaz
DATE: February 19, 2024

General

Is the work original and important to the field?

Yes

Does it have the appropriate research work structure?

Yes

Has academic vocabulary been used?

Yes

Are the sections complete and in a logical order?

Yes

Chapter Title

Is the title easy to understand and does it convey the important aspects of the research?

Yes

Originality

iThenticate Report Findings: 0%

Is the chapter acceptable in its current form?

Yes

Is the work original? (It was not already published?)

Yes

Does it give proper attribution?

Yes

Abstract

Does the abstract summarise the article?

Yes

Does it include key findings?

Yes

Introduction

Does it introduce and put into perspective what follows?

Yes

Methodology

Are the research methods and analysis well explained?

Yes

Can peers reproduce the experiments and get the same outcomes?

Yes

Did the authors include proper references to previously published methodology?

Yes

Is the description of new methodology accurate?

Yes

Could or should the authors have included supplementary material?

No

Key Results

Is discussion carried out in satisfactory matter?

Yes

Does the conclusion support the presented research?

Yes

References, Tables and Figures

Did the authors include proper references to previously published literature cited in the work?

Yes

Comment on figures, tables and schemes (their relevance/irrelevance)?

No

Type of Publication

Which type of publication is this chapter?

Research/review chapter

Comments for Authors

The authors aimed to investigate how to conduct field research on the various land-use characteristics of peatlands and how to present the data in a way that is accessible to the stakeholders. The topic of this paper is timely, relevant, and of interest to the " Hydrology – Current Research and Future Directions " book project's audience.

This paper is based on rigorous academic standards, and the content is technically accurate and sound.

- The abstract is concise and enough. However, Numerical results should be given to support the discussion and conclusion. The introduction provides the necessary background information.
- The research methodology is appropriate and applied correctly. The supporting evidence is intensely reliable and correctly validated.
- The analysis results are correctly interpreted; the tables and figures are appropriate and adequate. The conclusion is sound. However, some numerical results should be presented to support the conclusion in this section.
- The manuscript is easy to read and there are some minor grammatical or spelling errors.
- The references are comprehensive and appropriate.
- In my opinion, the manuscript is acceptable for possible publication after minor revision in the book.

Review Results

Minor revision (second review required)

NOTIFICATION OF CHAPTER ACCEPTANCE

February 26, 2024, London

Dear Dr. Amal,

It is my pleasure to inform you that the manuscript titled "Applying Field Research in Tropical Peatlands and Managing Ground Data- A Challenging Approach" has been accepted for publication.

Your chapter will appear in the Open Access book, "Hydrology - Current Research and Future Directions" edited by Associate Prof. Eyvaz.

Congratulations on your achievement! I would like to thank you for your important contribution to the scientific community, and for ensuring your research is freely available to readers all over the world.

We wish you every success with your publication.

Sincerely,

IntechOpen

IntechOpen - Welcome! Confirmation of Participation in "Hydrology - Current Research and Future Directions"

Dear Dr. Amal,

Welcome!

Thank you for accepting my invitation to write a chapter for the book project "Hydrology - Current Research and Future Directions."

I am happy to welcome you onboard to this book project and am excited about our first collaboration!

I want to introduce myself briefly. My name is Helena Recic, and I will be your Publishing Process Manager (imagine me as your dedicated publishing assistant), here to support you through every step of the publishing process.

YOUR FIRST STEP:

If you have not already done so, please submit your chapter proposal by providing:

- a tentative chapter title
- keywords
- short topic description (100 - 150 words)

You can do that via your Author Panel: https://publish.intechopen.com/s/author-panel?c__uiState=task&c__chapterId=a093Y00001g6yFzQAA

Your Author Panel (Manuscript Tracking System) will be your online tool to guide you through the publishing process and where you will submit your work.

As soon as you submit your proposal, your proposal will then be sent to our Academic Editor, Associate Prof. Murat Eyvaz, for review. You can expect your review results very soon after submission.

If your proposal is accepted by Associate Prof. Murat Eyvaz, I will be in touch right away with details on the full chapter submission process.

If you have any additional questions or need help or clarification of any kind, please feel free to contact me via email, and I will be more than happy to assist you.

I am looking forward to receiving your proposal soon!

Thank you,

Helena Recic
Publishing Process Manager

Wed, Jul 12, 2023 at 11:10 AM

Dear Helena,

I have submitted my short proposal right away. I am preparing it while doing any last studying related to the paper. But I hope I can get some waiver for publication fees regarding our Indonesian currency to GBP. Hopefully it will be one of your policies then. I am trying to manage my time wisely so that I can meet the deadline.

I am looking forward to hearing from you.

Sincerely,

Nilna Amal

Dear Dr. Amal,

Thank you for your email and submission of your chapter proposal.

Regarding your request, unfortunately, we cannot offer you a completely free publication, due to the fact that we only look at the waiver petition after full chapter acceptance, and that is for authors that are coming from a low-income economy country. You can check if you are in that category at the following link <https://data.worldbank.org/income-level/low-income>.

As a gold Open Access publisher - which means that all of our published content is never kept hidden behind any paywalls, but upon publication is immediately available for free and unlimited download, we require the payment of an Open Access Publishing Fee (OAPF). Our Open Access Publishing Fee (OAPF) to make your work available Open Access is **1400 GBP (+VAT if applicable)**.

Note that **this is not a submission fee** and only needs to be paid if your full chapter is accepted for publication by the editor. The OAPF is paid by authors, their institutions, or funding bodies.

Please keep in mind that our publishing standards align with most institutional funding programs, so we invite you to petition your institution for help in financing your Open Access publication. Moreover, if your institution does not have the funds required for the publication, I would like to encourage you to check out our list of funding bodies that support Open Access - your institution might be listed here as well: <https://www.intechopen.com/page/open-access-funding>

Allow me to mention some solutions regarding the Open Access Publishing Fee that our authors find helpful:

- Many of our authors choose one or more co-authors for collaboration on their chapter, in order to split the invoice while maintaining maximum impact and the scope of their chapter.
- In addition, we are willing to approve paying in monthly instalments or extend the payment deadline if needed.

Please let me know if the solutions mentioned above would work for you and if you have any other questions or concerns, I am at your disposal for further assistance.

Sincerely,
Helena
